

Cold Rolled Galvanized Steel Flat Sheet With Decoiling Cutting Bending Service

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

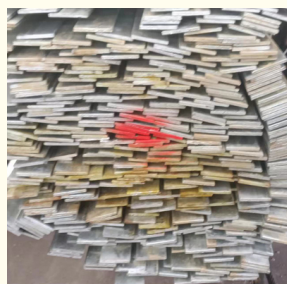

Product Specification

- Special Use: Mold Steel
- Alloy Or Not: Non-Alloy
- Packing: In Bundles Or As Per Customer's Requirements
- Surface: Black
- Width: Customization
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Length: Customization
- Hardness: Soft, Full Hard, Half Hard
- Steel Grade: 201 304 316L
- Highlight: **decoiling galvanized flat bar,
decoiling galvanized flat steel,
cutting galvanized flat bar**

Product Description

Product Description:

The galvanized coating on this flat steel provides an additional layer of protection against corrosion and rust. The surface treatment ensures that the steel will last longer, even in harsh environments or high-moisture areas. The galvanized coating also gives the steel a shiny and attractive appearance, making it ideal for decorative applications.

This cold rolled galvanized flat steel product can be customized to meet your specific length requirements. It is available in a range of thicknesses, widths, and lengths to suit any project. The surface of this flat steel is black, which makes it an excellent choice for applications where a dark, matte finish is desired.

One of the main advantages of cold rolled galvanized flat steel is its versatility. It can be used in a wide range of applications, from construction and automotive manufacturing to furniture and appliance production. This product is suitable for bending, welding, decoiling, cutting, and punching, making it easy to work with and adapt to your needs.

Compared to hot-rolled flat steel, cold rolled galvanized flat steel has a smoother and more uniform surface finish. This makes it ideal for applications where aesthetics and precision are important, such as in the production of high-quality furniture, appliances, and electronics.

Features:

Galvanized Flat Steel is a type of Building Bridge Steel that is made of Carbon Steel and can be customized in length and width. It also offers various processing services such as bending, welding, decoiling, cutting, and punching. Additionally, it is non-alloy.

Technical Parameters:

Parameter	Value
Product Name	Galvanized flat steel
Other Names	Galvanized Flat Iron Cold Drawn Steel, Cold rolled galvanized flat steel
Application	Construction, Machinery, Shipbuilding, Etc.
Hardness	Soft, Full Hard, Half Hard
Material	Carbon Steel
Processing Service	Bending, Welding, Decoiling, Cutting, Punching
Packing	In Bundles Or As Per Customer's Requirements
Alloy Or Not	Non-Alloy
Special Use	Mold Steel
Technique	Cold Rolled Based
Length	Customization
Surface	Black

Applications:

Galvanized flat steel is available in a variety of lengths and can be customized to meet the needs of any project. The zinc coating can also be customized to provide additional protection against corrosion. This product is available in bundles or can be packed according to customer requirements.

In summary, cold rolled galvanized flat steel is a high-quality, versatile material that is suitable for a wide range of applications. It is sourced from Hebei, China and certified to meet ISO9001 standards. Its length and zinc coating can be customized to meet the needs of any project, and it is suitable for use in construction, machinery, shipbuilding, and other industries.

Packing and Shipping:

Product Packaging:

The galvanized flat steel will be packaged in bundles, securely strapped with steel bands and covered with plastic wrap to protect against moisture and other potential damage during transport.

Shipping:

The galvanized flat steel will be shipped via a reputable carrier, with the option for expedited shipping if needed. The carrier will be chosen based on the destination and delivery timeframe requested by the customer.

FAQ:

Here are some frequently asked questions about our Galvanized Flat Steel product:

Q: Where is the Galvanized Flat Steel product made?

A: Our Galvanized Flat Steel product is made in Hebei, China.

Q: What certification does the Galvanized Flat Steel product have?

A: The Galvanized Flat Steel product is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Flat Steel product?

A: The minimum order quantity for the Galvanized Flat Steel product is negotiable.

Q: What is the price for the Galvanized Flat Steel product?

A: The price for the Galvanized Flat Steel product is negotiable.

Q: What are the packaging details and delivery time for the Galvanized Flat Steel product?

A: The packaging details for the Galvanized Flat Steel product are according to customer needs. The delivery time for the product is 15-30 work days.

Q: What payment terms are accepted for the Galvanized Flat Steel product?

A: We accept TT as payment for the Galvanized Flat Steel product.
