

## U Channel Galvanized Steel Construction Not Perforated 1.5mm-5.0mm Thickness

Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

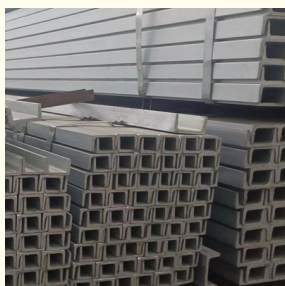

### Product Specification

- Name: U-shaped Channel Steel
- Package: Standard Seaworthy Package
- Surface Treatment: Galvanized
- Shape: Channel
- Perforated Or Not: Not Perforated
- Technique: Hot Rolled Steel Channel
- Material: Galvanized Steel
- Application: Construction, Machinery, Shipbuilding, Etc.
- Highlight: **u channel galvanized steel construction , construction galvanized u channel steel , 1.5mm galvanized u channel steel**

## Product Description

### Product Description:

This Not Perforated Galvanized Steel Strut Channel comes in various thicknesses ranging from 1.5mm-5.0mm, providing versatility in its application. This product is designed to withstand heavy loads, making it ideal for use in heavy-duty construction projects and industrial settings.

In addition to its durability, this Galvanized Steel Strut Channel also comes with a standard seaworthy package, ensuring that it arrives at your location in excellent condition. This package protects the product from any damage during transit, making it a reliable choice for your business needs.

Overall, our Galvanized Channel Steel product is an excellent choice for anyone looking for a durable and reliable product that can withstand heavy loads and harsh weather conditions. With its Zinc Plated Steel Channel, standard seaworthy package, and processing services, this product is sure to meet all your business needs.

### Technical Parameters:

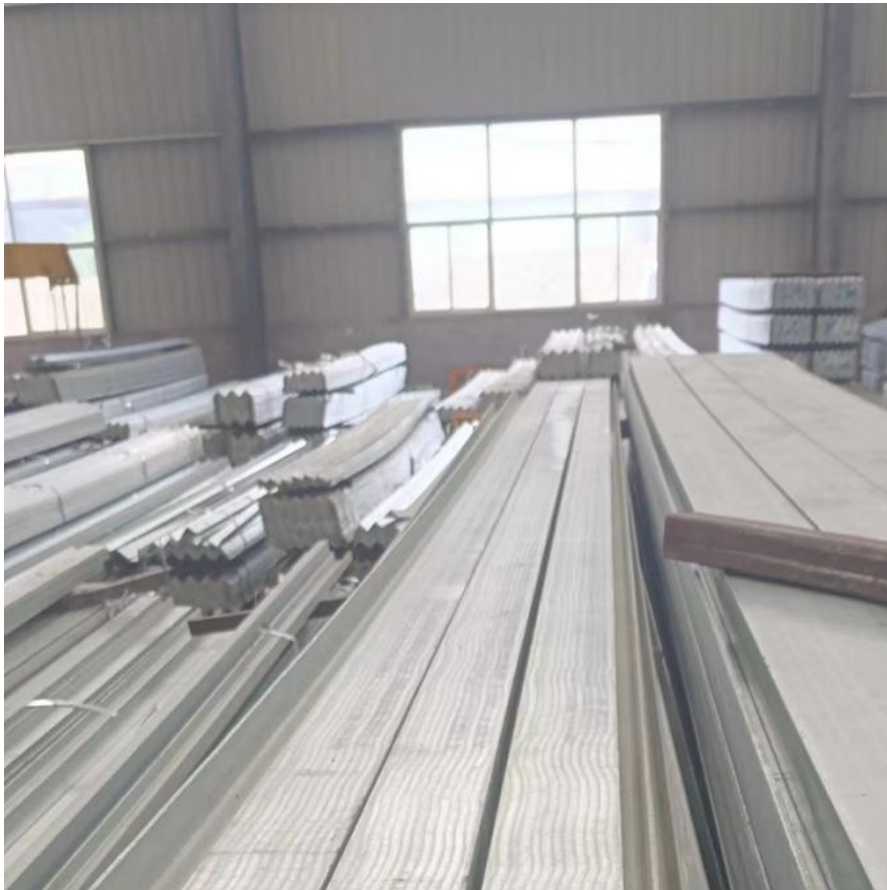

Material	Galvanized Steel
Usage	Building Construction Materials
Length	Customization
Technique	Hot Rolled Steel Channel
Package	Standard Seaworthy Package
Perforated Or Not	Not Perforated
Shape	Channel
Processing Services	Include Bending, Welding, Punching, Uncoiling, And Cutting
Thickness	1.5mm-5.0mm
Application	Construction, Machinery, Shipbuilding, Etc.

### Applications:

The Galvanized Metal U-Channel is a popular choice for construction projects due to its durability and strength. It is commonly used for framing, support structures, and as a base for drywall installation. The Galvanized Steel Strut Channel is also a favorite in the machinery industry, where it is used as a sturdy mounting platform for heavy equipment.

Shipbuilding companies also rely on the Galvanized Metal U-Channel for its resistance to corrosion. This ensures that the channel beam will not rust, even in harsh marine environments. The channel beam is also easy to process, with services that include bending, welding, punching, uncoiling and cutting.

In summary, the Galvanized Metal U-Channel is an excellent choice for anyone in need of a durable, customizable, and corrosion-resistant building material. Whether for construction, machinery, shipbuilding or any other application, the Galvanized Steel Strut Channel is a reliable choice that is sure to meet your needs.

### **Packing and Shipping:**

#### **Product Packaging:**

The galvanized channel steel will be packed in bundles with steel strips. Each bundle will be securely fastened and labeled with product information.

#### **Shipping:**

The galvanized channel steel will be shipped via truck or train.

Shipping fees will be calculated based on the destination and weight of the product.

Delivery times will vary based on the shipping method and destination.

## FAQ:

### Frequently Asked Questions about Galvanized Channel Steel

**Q: What is Galvanized Channel Steel?**

A: Galvanized Channel Steel is a type of steel that has been coated with a layer of zinc to protect it from corrosion.

**Q: Where is Galvanized Channel Steel made?**

A: Galvanized Channel Steel is made in Hebei, China.

**Q: Is Galvanized Channel Steel certified?**

A: Yes, Galvanized Channel Steel is certified with ISO9001.

**Q: What is the minimum order quantity for Galvanized Channel Steel?**

A: The minimum order quantity for Galvanized Channel Steel is negotiable.

**Q: What is the price of Galvanized Channel Steel?**

A: The price of Galvanized Channel Steel is negotiable.

**Q: How is Galvanized Channel Steel packaged?**

A: Galvanized Channel Steel is packaged according to customer needs.

**Q: What is the delivery time for Galvanized Channel Steel?**

A: The delivery time for Galvanized Channel Steel is 15-30 work days.

**Q: What are the payment terms for Galvanized Channel Steel?**

A: The payment terms for Galvanized Channel Steel is TT.
