#### **Product Description:**

Our aluminum embedded parts are designed to provide reliable, long-lasting performance in a variety of construction applications. Whether you're building a new structure from the ground up or making repairs and upgrades to an existing building, our products are the perfect choice for all your embedded fixture needs.

With a sleek, silver color and customizable sizing options, our aluminum embedded parts are the perfect choice for any project. Whether you're looking for a specific size or need custom sizing to fit your unique needs, our team of experts is here to help you find the perfect solution

And with our commitment to customization, you can be sure that you're getting a product that's tailored to your specific needs. Whether you need galvanized embedded parts or other customizations, we're here to help you get the perfect product for your project. So why wait? Browse our selection of top-quality aluminum embedded parts today and see why we're the go-to choice for building construction professionals around the world!

#### **Technical Parameters:**

Heat Resistance	Good
Application	Building Construction
Customization	Available
Durability	High
Corrosion Resistance	Strong
Size	Customized
Weight	Lightweight
Surface Treatment	Anodizing
Installation	Easy
Material	Aluminum

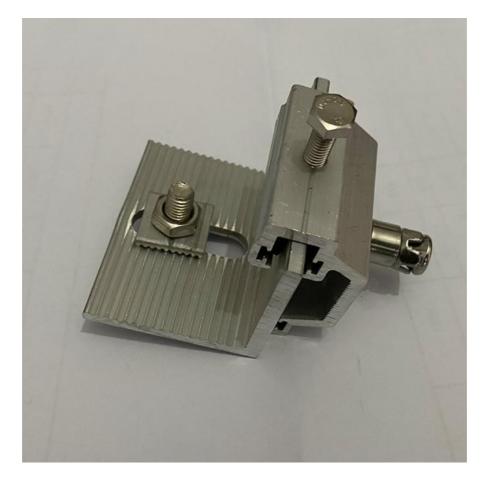

#### **Applications:**

Aluminum Embedded Parts are lightweight and can be customized in size to fit the intended application. These parts are typically utilized in building embedded parts, such as walls, floors, and ceilings. They are also used in various industrial settings, such as manufacturing plants and warehouses.

These parts are treated with anodizing surface treatment, which provides a protective layer against corrosion and wear and tear. The durability of Aluminum Embedded Parts is high, ensuring that they can withstand harsh environments and conditions.

Aluminum Embedded Parts are commonly used in galvanized embedded parts, which are utilized in various construction applications. These parts offer a secure and reliable way to embed materials, such as pipes and wiring, into concrete walls and floors.

Whether you're working on a large-scale commercial project or a small residential renovation, Aluminum Embedded Parts are an ideal solution for your embedding needs. With their lightweight design, customizable size options, and high durability, these parts are an excellent investment for any project.

#### **Packing and Shipping:**

Product Packaging:

The aluminum embedded parts will be packaged securely in a sturdy cardboard box. Each part will be individually wrapped in bubble wrap to prevent any damage during transit.

The product will be shipped via a reputable courier service to ensure a timely and safe delivery. Customers will be provided with a tracking number to monitor the shipment's progress. Shipping costs will be calculated based on the destination and weight of the

#### FAQ:

- Q: What is the place of origin of the Aluminum Embedded Parts?
- A: The Aluminum Embedded Parts are made in Hebei, China.
- Q: Is the product certified?
- A: Yes, the Aluminum Embedded Parts are certified with ISO9001.
- Q: What is the minimum order quantity of the product?
- A: The minimum order quantity of the Aluminum Embedded Parts is negotiable.
- Q: What is the price of the Aluminum Embedded Parts?
- A: The price of the Aluminum Embedded Parts is negotiable.
- Q: What are the packaging details and delivery time of the product?
- A: The packaging details of the Aluminum Embedded Parts are according to customer needs. The delivery time is 15-30 work days.
- Q: What are the payment terms for the Aluminum Embedded Parts?
- A: The payment terms for the Aluminum Embedded Parts are TT.
