

Corrosion Resistant Cold Rolled Carbon Steel Hot dipped galvanized flat steel Sheets

Our Product Introduction

for more products please visit us on galvmetal.com

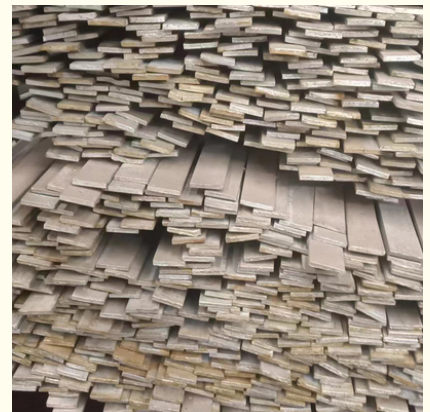

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Packing: In Bundles Or As Per Customer's Requirements
- Surface Treatment: Galvanized
- Material: Carbon Steel
- Tolerance: $\pm 1\%$
- Special Use: Mold Steel
- Surface: Black
- Alloy Or Not: Non-Alloy
- Width: 12-300mm
- Thickness: 4-60mm
- Highlight: cold rolled galvanized flat bar , cold rolled galvanized flat steel

Product Description

Product Description:

This product is specifically designed for Special Use in Mold Steel applications where strength and durability are of utmost importance. The Galvanized flat steel is also known for its high resistance to impact and wear, making it ideal for use in a variety of industrial and commercial settings.

The surface of the Galvanized Flat Steel product is typically Black in color, which provides a sleek and modern look. The black surface is achieved through a special process that ensures the steel is evenly coated and has a smooth finish. This makes it an attractive option for a wide range of architectural and design projects.

When it comes to Packing, the Galvanized Flat Steel product is typically bundled together for ease of transportation. However, it can also be customized to meet the specific requirements of individual customers. This means that it can be packed in a variety of ways, depending on the customer's needs and preferences.

Features:

The Galvanized Flat Steel product is a versatile material that comes in various levels of hardness, including Soft, Full Hard, and Half Hard. It offers customization options for Zinc Coating and Length, and is Non-Alloy. Additionally, it has a Tolerance of $\pm 1\%$. This product is available as Galvanized Flat Iron Cold Drawn Steel or Hot-Rolled Flat Steel.

Technical Parameters:

Technical Parameter	Description
Technique	Cold Rolled Based
Hardness	Soft, Full Hard, Half Hard
Packing	In Bundles Or As Per Customer's Requirements
Processing Service	Bending, Welding, Decoiling, Cutting, Punching
Application	Construction, Machinery, Shipbuilding, Etc.
Width	Customization
Surface	Black
Material	Carbon Steel
Special Use	Mold Steel
Tolerance	$\pm 1\%$

Applications:

The Galvanized Flat Steel product is a versatile and durable material that can be used in various applications. Its primary application is in the construction industry where it is used for building bridges, skyscrapers, and other large structures. The steel's strength and durability make it an ideal material for these applications.

The Galvanized Flat Steel product is processed with a galvanized surface treatment, which increases its resistance to corrosion, making it suitable for outdoor use. The steel can be bent, welded, decoiled, cut, and punched, making it a versatile material for various applications. The hardness of the steel can be customized to meet the needs of different applications. It can be soft, full hard, or half hard. In summary, the Galvanized Flat Steel product is a versatile and durable material that is ideal for construction, machinery, shipbuilding, and other applications. Its galvanized surface treatment increases its resistance to corrosion, making it suitable for outdoor use. The steel can be customized to meet the needs of different applications, and it is made in Hebei, China and certified with ISO9001.

Packing and Shipping:

Product Packaging:

The Galvanized Flat Steel product will be packaged securely to ensure that it arrives in good condition. The product will be wrapped in protective material and placed in a sturdy cardboard box. The box will be sealed with packing tape to prevent any damage during transportation.

Shipping:

We offer fast and reliable shipping for the Galvanized Flat Steel product. The product will be shipped via our trusted carrier partners and

will be delivered within the estimated delivery time provided at checkout. Once the order has been shipped, you will receive a tracking number to track the status of your shipment.

FAQ:

Q: Where is the Galvanized Flat Steel product made?

A: The Galvanized Flat Steel product is made in Hebei, China.

Q: Is the Galvanized Flat Steel product certified?

A: Yes, the Galvanized Flat Steel product is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Flat Steel product?

A: The minimum order quantity for the Galvanized Flat Steel product is negotiable.

Q: How much does the Galvanized Flat Steel product cost?

A: The price for the Galvanized Flat Steel product is negotiable.

Q: How is the Galvanized Flat Steel product packaged and delivered?

A: The Galvanized Flat Steel product is packaged according to customer needs and delivered within 15-30 work days. Payment terms are TT.
