

Carbon Steel Cold Rolled Flat Bar Galvanised Customizable Length For Bending

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Length: Customization
- Technique: Cold Rolled Based
- Width: Customization
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Zinc Coating: Customization
- Application: Construction, Machinery, Shipbuilding, Etc.
- Material: Carbon Steel
- Packing: In Bundles Or As Per Customer's Requirements
- Steel Grade: 321 310S 303
- Thickness: 12mm
- Highlight: flat bar galvanised customizable, cold rolled flat bar galvanized

Product Description

Product Description:

The length of our Galvanized flat steel can be customized to meet the specific needs of our customers. This allows for greater flexibility in terms of the projects that the steel can be used for. Our Galvanized flat steel is also available in a wide range of thicknesses, widths, and lengths to ensure that it can be used for a variety of applications.

In addition to its customizable length, our Galvanized flat steel product also comes with a range of processing services. These include bending, welding, decoiling, cutting, and punching. These services are designed to help our customers get the most out of their Galvanized flat steel product and make it easier to work with.

Overall, our Galvanized flat steel product is a versatile and reliable option for anyone in need of a high-quality steel product. Its customizable length, range of processing services, and specialized use as mold steel make it an ideal choice for a wide range of applications.

Technical Parameters:

Technical Parameter	Description
Product Name	Galvanized Flat Steel
Hardness	Soft, Full Hard, Half Hard
Surface Treatment	Galvanized
Technique	Cold Rolled Based
Zinc Coating	Customization
Packing	In Bundles Or As Per Customer's Requirements
Processing Service	Bending, Welding, Decoiling, Cutting, Punching
Alloy Or Not	Non-Alloy
Special Use	Mold Steel
Application	Construction, Machinery, Shipbuilding, Etc.
Width	Customization

Applications:

Construction: Galvanized flat steel is often used in construction projects because of its strength and durability. It can be used for everything from framing to roofing to fencing. Its ability to resist corrosion also makes it an ideal material for outdoor applications.

Automotive: Galvanized flat steel is also used in the automotive industry, particularly for making parts that need to be strong and durable, like chassis components and suspension parts.

Manufacturing: Galvanized flat steel is commonly used in manufacturing settings because of its versatility. It can be used to make a variety of products, from pipes to shelving to furniture.

Hot-Rolled Flat Steel: Galvanized flat steel is often used in hot-rolled flat steel production. Hot-rolled flat steel is a type of steel that is rolled while it is still hot, making it easier to shape and form. Galvanized flat steel is often used as a base material for hot-rolled flat steel products.

Galvanized Steel Strip: Galvanized flat steel can also be used to make galvanized steel strip, which is commonly used in the construction and automotive industries. Galvanized steel strip is often used to make parts that need to be strong and durable, like brackets and clamps.

Packing and Shipping:

Product: Galvanized Flat Steel

Description: Our Galvanized Flat Steel is made of high-quality steel and coated with a layer of zinc to protect against rust and corrosion. It is perfect for use in construction, manufacturing, and other industrial applications.

Packaging: The Galvanized Flat Steel is carefully packaged to ensure safe delivery. It is wrapped in plastic to protect against moisture and then placed in a sturdy cardboard box. The box is labeled with the product name and dimensions for easy identification.

Shipping: We offer both domestic and international shipping options for our Galvanized Flat Steel. Orders are typically processed within 1-

2 business days and shipped via ground or air depending on the customer's preference. Shipping costs will vary depending on the destination and shipping speed selected.

FAQ:

Q: What is the place of origin of Galvanized Flat Steel?

A: Galvanized Flat Steel is manufactured in Hebei, China.

2.

Q: Does Galvanized Flat Steel have any certification?

A: Yes, Galvanized Flat Steel is certified with ISO9001.

3.

Q: What is the Minimum Order Quantity for Galvanized Flat Steel?

A: The Minimum Order Quantity for Galvanized Flat Steel is negotiable.

4.

Q: Can the price of Galvanized Flat Steel be negotiated?

A: Yes, the price for Galvanized Flat Steel is negotiable.

5.

Q: What are the Packaging Details for Galvanized Flat Steel?

A: The Packaging Details for Galvanized Flat Steel are according to the customer's needs.

6.

Q: What is the Delivery Time for Galvanized Flat Steel?

A: The Delivery Time for Galvanized Flat Steel is 15-30 work days.

7.

Q: What are the Payment Terms for Galvanized Flat Steel?

A: The Payment Terms for Galvanized Flat Steel is TT.
