

Q235B 201 304 316L Galvanized Channel Steel for Durable Metal Building Construction

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Package: Standard Seaworthy Package
- Length: Customization
- Usage: Building Construction Materials
- Processing Services: Include Bending, Welding, Punching, Uncoiling, And Cutting
- Surface Treatment: Galvanized
- Application: Construction, Machinery, Shipbuilding, Etc.
- Shape: Channel
- Perforated Or Not: Not Perforated
- Steel Grade: Q235B 201 304 316L
- Highlight: **316l galvanized channel steel, q235b galvanized u channel, q235b galvanized channel steel**

Product Description:

Our Galvanized Channel Metal is available in a range of thicknesses, from 1.5mm to 5.0mm, making it suitable for a variety of different applications. Whether you need a lightweight channel for a small-scale project or a thicker, more heavy-duty option for larger construction jobs, we have the right product for you.

As well as being available in a range of thicknesses, our Zinc Plated Steel Channel can also be customised to meet your specific requirements. We offer a range of processing services, including bending, welding, punching, uncoiling, and cutting, ensuring that your channel steel is tailored to your precise needs.

So whether you are building a new structure from scratch or carrying out renovations on an existing building, our Zinc Plated Steel Channel is the perfect choice. With its exceptional strength, durability, and resistance to corrosion, it will provide long-lasting support for your construction project, ensuring that it stands the test of time.

Technical Parameters:

Package	Standard Seaworthy Package
Shape	Channel
Perforated Or Not	Not Perforated
Technique	Hot Rolled Steel Channel
Name	U-shaped Channel Steel
Application	Construction, Machinery, Shipbuilding, Etc.
Thickness	1.5mm-5.0mm
Processing services	Include Bending, Welding, Punching, Uncoiling, And Cutting
Material	Galvanized Steel
Length	Customization

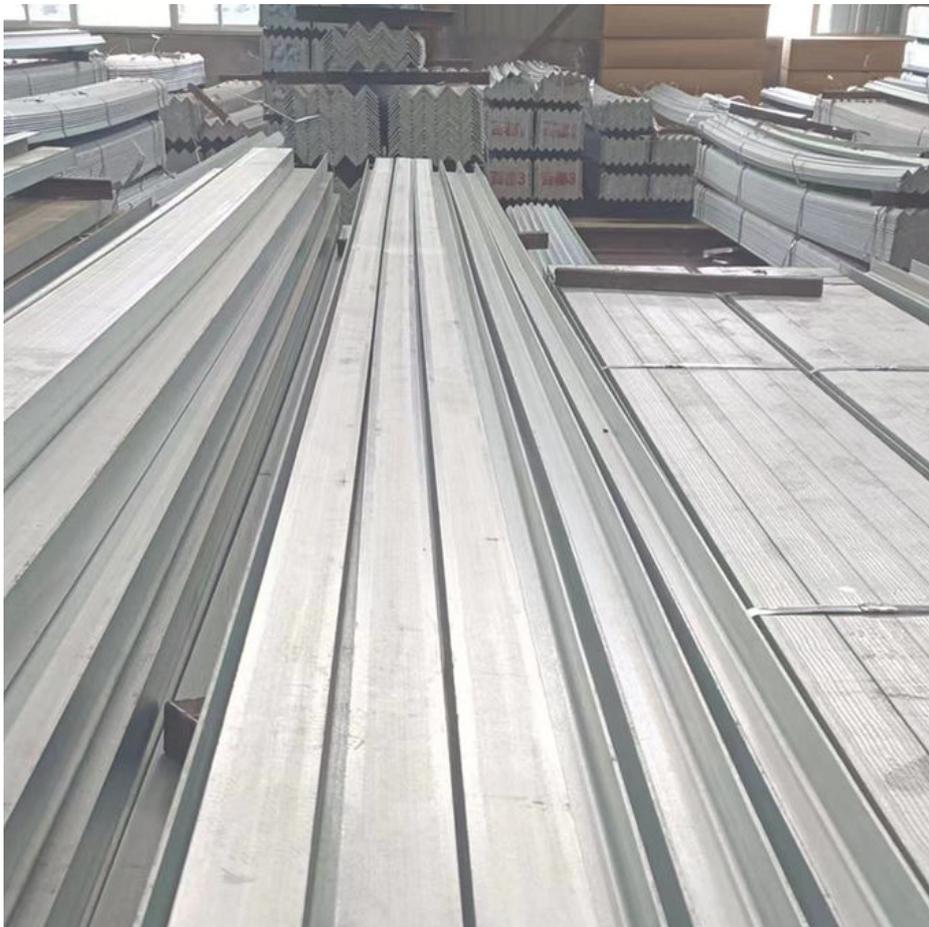

Specifications	Height	Width	Thickness
5#	50	37	4.5
6.3#	63	40	4.8
8#	80	43	5.0
10#	100	48	5.3

Applications:

The Galvanized Metal U-Channel is a durable and sturdy material that can be customized according to length requirements. The Zinc Plated Steel Channel has a galvanized surface treatment that protects it from corrosion and makes it suitable for outdoor use. This Zinc Plated Steel Channel is not perforated, making it ideal for use as a support or framing material.

In summary, the Galvanized Channel Steel, also known as Zinc Plated Steel Channel, is a versatile and durable material that can be used in various applications and scenarios. It is produced in Hebei, China, and has ISO9001 certification, ensuring quality and reliability. The minimum order quantity is negotiable, and the price is also negotiable. The Galvanized Metal U-Channel can be customized according to length requirements and can be processed to include bending, welding, punching, uncoiling, and cutting. It is a popular choice for the construction, manufacturing, and automotive industries.

Packing and Shipping:

Product Packaging:

The galvanized channel steel will be packaged securely to prevent any damage during transportation. The channels will be stacked and wrapped with protective material to ensure their safety during transit.

Shipping:

We offer shipping services for our galvanized channel steel product. The product will be shipped via standard shipping methods and will be delivered within the estimated delivery time. Shipping costs may vary based on the shipping destination and quantity of product ordered.

FAQ:

Q: What is the place of origin of Galvanized Channel Steel?

A: Galvanized Channel Steel is produced in Hebei, China.

Q: Is Galvanized Channel Steel certified?

A: Yes, it is certified with ISO9001.

Q: What is the minimum order quantity for Galvanized Channel Steel?

A: The minimum order quantity for Galvanized Channel Steel is negotiable.

Q: How much does Galvanized Channel Steel cost?

A: The price of Galvanized Channel Steel is negotiable.

Q: How is Galvanized Channel Steel packaged and delivered?

A: Galvanized Channel Steel is packaged according to customer needs. The delivery time is 15-30 work days. Payment terms are TT.
