

Not Perforated Galvanized Hot Rolled Steel Channel Q355 U Shaped Metal Channel 100% Tested

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Shape: Channel
- Material: Galvanized Steel
- Surface Treatment: Galvanized
- Perforated Or Not: Not Perforated
- Technique: Hot Rolled Steel Channel
- Quality: 100% Tested
- Application: Construction, Machinery, Shipbuilding, Etc.
- Name: U-shaped Channel Steel
- Steel Grade: Q355
- Highlight: **q355 u shaped metal channel, u shaped metal channel 100% tested, q355 u shaped channel metal**

Product Description

Product Description:

Our Galvanized Channel Steel is not perforated, making it ideal for a variety of applications, including construction, engineering, and manufacturing. The hot-rolled steel channel technique used to manufacture this product ensures that it is strong and reliable, capable of supporting heavy loads without bending or breaking.

In addition to its strength and durability, our Galvanized Channel Steel is also highly versatile. It can be easily bent, welded, punched, uncoiled, and cut to suit your specific needs, making it an excellent choice for a wide range of applications.

Whether you're looking for a carbon steel C Channel Bar for your next construction project or a rust-proof channel iron for your manufacturing needs, our Galvanized Channel Steel is the perfect choice. So why wait? Order yours today and experience the strength, durability, and versatility of this high-quality product for yourself!

Technical Parameters:

Name	Galvanized Steel Strut Channel
Usage	Building Construction Materials
Quality	100% Tested
Application	Construction, Machinery, Shipbuilding, Etc.
Processing Services	Include Bending, Welding, Punching, Uncoiling, And Cutting
Material	Galvanized Steel
Perforated Or Not	Not Perforated
Thickness	1.5mm-5.0mm
Surface Treatment	Galvanized
Package	Standard Seaworthy Package

Specifications	Height	Width	Thickness
5#	50	37	4.5
6.3#	63	40	4.8
8#	80	43	5.0
10#	100	48	5.3

Applications:

Galvanized Channel Steel is made of Galvanized Steel and is not perforated. This product is highly durable and has excellent resistance against corrosion. The product is ideal for use in harsh environments and is suitable for applications in Construction, Machinery, Shipbuilding, and other industries.

The Corrosion-Resistant Channel Beam is a versatile product that is widely used in the construction industry. It is ideal for use in harsh environments and can withstand extreme weather conditions. The product is also used in the machinery industry, where it is used to provide support and strength to heavy machinery. The Galvanized Steel Strut Channel is also commonly used in shipbuilding, where it is used to provide support and strength to the ship's structure.

In conclusion, the Galvanized Channel Steel is a highly versatile product that is suitable for a wide range of applications. It is highly durable, corrosion-resistant, and is available in various sizes and shapes to meet the needs of different industries. The product is made in Hebei, China, and is certified with ISO9001. The Minimum Order Quantity is negotiable, and the price is also negotiable. The packaging details are according to customer needs, and the delivery time is usually 15-30 workdays. Payment terms are TT.

Packing and Shipping:

Product Packaging:

Galvanized Channel Steel is packaged in bundles with steel strips and covered with plastic bags to protect the product from any damage during transportation.

Product Shipping:

Galvanized Channel Steel is shipped through land, sea, or air transportation depending on the customer's preference and urgency. The product is loaded securely on pallets or in containers to ensure safe and efficient delivery.

FAQ:

- Q:** What is the place of origin for Galvanized Channel Steel?
A: Galvanized Channel Steel is made in Hebei, China.
- Q:** What certification does Galvanized Channel Steel have?
A: Galvanized Channel Steel is certified with ISO9001.
- Q:** What is the minimum order quantity for Galvanized Channel Steel?
A: The minimum order quantity for Galvanized Channel Steel is negotiable.
- Q:** What is the price for Galvanized Channel Steel?
A: The price for Galvanized Channel Steel is negotiable.
- Q:** What are the packaging details for Galvanized Channel Steel?
A: The packaging details for Galvanized Channel Steel are according to customer needs.
- Q:** What is the delivery time for Galvanized Channel Steel?
A: The delivery time for Galvanized Channel Steel is 15-30 work days.
- Q:** What are the payment terms for Galvanized Channel Steel?
A: The payment terms for Galvanized Channel Steel are TT.
