Q345 201 304 Galvanized U Channel Steel Hot Rolled Channel Zinc Plated Steel Channel

Basic Information

- Place of Origin:
- Certification: ISO9001
- Minimum Order
 Quantity:
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms:

Product Specification

| Surface Treatment: | Galvanized | |
|--------------------|--|--|
| Application: | Construction, Machinery, Shipbuilding, Etc. | |
| Name: | U-shaped Channel Steel | |
| Length: | Customization | |
| Technique: | Hot Rolled Steel Channel | |
| • Shape: | Channel | |
| Perforated Or Not: | Not Perforated | |
| Quality: | 100% Tested | |
| Steel Grade: | Q345 201 304 | |
| • Size: | Customization | |
| Highlight: | 304 galvanized u channel steel, galvanized u channel steel hot rolled, q345 u channel galvanized steel | |

Our Product Introduction

Product Description:

The Galvanized Channel Steel is available in a range of thicknesses from 1.5mm-5.0mm, making it suitable for a variety of applications. Its Hot Rolled Steel Channel technique ensures that it is strong and durable enough to withstand heavy loads and other stresses. The Channel shape of this product also provides excellent structural support, making it ideal for use in various construction projects. One of the key benefits of the Galvanized Channel Metal is its rust-proof properties. The Galvanized coating provides a protective layer that prevents the metal from corroding, even in harsh environments. This makes it an ideal choice for outdoor applications where it may be exposed to rain, snow, or other elements.

Technical Parameters:

| Technical Parameter | Description | | |
|---------------------|--|--|--|
| Product Name | Zinc Plated Steel Channel / Galvanized Metal U-Channel / Zinc Plated Steel Channel | | |
| Length | Customization | | |
| Application | Construction, Machinery, Shipbuilding, Etc. | | |
| Perforated Or Not | Not Perforated | | |
| Material | Galvanized Steel | | |
| Quality | 100% Tested | | |
| Thickness | 1.5mm-5.0mm | | |
| Package | Standard Seaworthy Package | | |
| Usage | Building Construction Materials | | |
| Surface Treatment | Galvanized | | |
| Shape | Channel | | |

Applications:

Galvanized Channel Steel is used in various applications, including framing systems, electrical systems, and mechanical systems. They are commonly used in building construction, where they provide support for ceilings, walls, and roofs.

The Galvanized Steel Strut Channel is used in a variety of scenarios. One of the most common applications is in electrical systems, where the channels are used to support wiring and other electrical components. They are also used in mechanical systems, where they provide support for pipes and other mechanical components.

The delivery time for the Galvanized Channel Steel is 15-30 work days, and the payment terms are TT. The length of the channels can be customized to meet the specific needs of the project. The channels are not perforated, ensuring that they provide maximum support and protection.

Packing and Shipping:

Product Packaging:

The Galvanized Channel Steel is packaged in bundles with steel straps and covered with plastic bags to protect against moisture and damage during transportation and storage.

Shipping:

We offer shipping via land, sea, and air. Shipping costs may vary depending on the destination and quantity of the order. Customers may choose their preferred shipping method, and we will provide a shipping quote accordingly. We work with trusted logistics partners to ensure timely delivery and safe handling of the product.

FAQ:

- Q: What is the place of origin for the Galvanized Channel Steel product?
- A: The Galvanized Channel Steel product is made in Hebei, China.
- Q: Does the Galvanized Channel Steel product come with ISO9001 certification?
- A: Yes, the Galvanized Channel Steel product is certified with ISO9001.
- Q: What is the minimum order quantity for the Galvanized Channel Steel product?
- A: The minimum order quantity for the Galvanized Channel Steel product is negotiable.
- Q: Is the price for the Galvanized Channel Steel product negotiable?
- A: Yes, the price for the Galvanized Channel Steel product is negotiable.
- Q: How is the Galvanized Channel Steel product packaged and delivered?
- A: The Galvanized Channel Steel product is packaged according to customer needs and delivered within 15-30 work days after payment is received. Payment terms are TT.
