

## Customized Not Perforated C Channel Galvanized Steel 1.5mm-5.0mm Q355 Q345 201

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

#### Product Specification

- Thickness: 1.5mm-5.0mm
- Perforated Or Not: Not Perforated
- Package: Standard Seaworthy Package
- Processing Services: Include Bending, Welding, Punching, Uncoiling, And Cutting
- Length: Customization
- Application: Construction, Machinery, Shipbuilding, Etc.
- Material: Galvanized Steel
- Shape: Channel
- Steel Grade: Q355 Q345 201
- Highlight: **customized galvanized u channel, customized galvanized channel steel, 5mm galvanized u channel**

## Product Description

### Product Description:

Our Galvanized Metal U-Channel is made from carbon steel, making it strong enough to withstand the toughest conditions. It is an essential component in any project that requires a sturdy and reliable support structure.

Our Carbon steel C Channel Bar is 100% tested to ensure that it meets our strict quality standards. You can rest assured that our product is of the highest quality and will provide exceptional performance in your project.

Our Galvanized Channel Steel comes in a standard seaworthy package, making it easy to transport and store. The Channel shape is perfect for creating strong and stable structures, making it the ideal choice for any construction, machinery, or shipbuilding project.

Whether you are a professional builder or a DIY enthusiast, our Galvanized Channel Steel is the perfect solution for your project needs. It is easy to work with and provides excellent value for money.

### Features:

Introducing our Galvanized Metal U-Channel - a top-quality construction material that is perfect for your building needs. Made from high-grade carbon steel, this C Channel Bar is designed to withstand extreme pressure and heavy loads, ensuring that your structures are built to last. With a thickness range of 1.5mm-5.0mm, our U-shaped Channel Steel provides maximum strength and durability without sacrificing flexibility. And with our 100% Tested Quality guarantee, you can be confident that our Carbon steel C Channel Bar will exceed your expectations every time.

### Technical Parameters:

Quality	100% Tested
Material	Galvanized Steel
Length	Customization
Thickness	1.5mm-5.0mm
Perforated Or Not	Not Perforated
Shape	Channel
Surface Treatment	Galvanized
Package	Standard Seaworthy Package
Processing services	Include Bending, Welding, Punching, Uncoiling, And Cutting
Usage	Building Construction Materials

Specifications	Height	Width	Thickness
5#	50	37	4.5
6.3#	63	40	4.8
8#	80	43	5.0
10#	100	48	5.3
12#	120	53	5.5
14#a	140	58	6.0
14#b	140	60	8
16#a	160	63	6.5
16#b	160	65	8.5
18#a	180	68	7
18#b	180	70	9
20#a	200	73	7
20#b	200	75	9
22#a	220	77	7
22#b	220	79	9

25#a	250	78	7
25#b	250	80	9
25#c	250	82	11
28#a	280	82	7.5
28#b	280	84	9.5
28#c	280	86	11
30#a	300	85	7.5

### Applications:

Galvanized Channel Steel is ideal for use in a wide range of construction applications, including constructing walls, ceilings, floors, and roofs. It can also be used to support heavy loads, such as in the construction of bridges, tunnels, and other large-scale structures. The U-shaped design of the channel beam provides added strength and stability to the structure, making it ideal for use in high-stress applications.

Overall, Galvanized Channel Steel is a versatile and durable building material that is ideal for use in a wide range of construction applications. It is corrosion-resistant, easy to install, and can withstand heavy loads and harsh environments. If you are looking for a reliable and high-quality building material, Galvanized Channel Steel is an excellent choice.

### Packing and Shipping:

#### Product Packaging:

The Galvanized Channel Steel product will be packaged in bundles with steel strips and covered with plastic bags to protect against moisture and damage during transportation. Each bundle will be securely fastened with wire or straps to ensure safe delivery.

#### Shipping:

The Galvanized Channel Steel product will be shipped via truck or container, depending on the order size and destination. We will coordinate with the shipping carrier to ensure timely and efficient delivery. Upon arrival, the customer or recipient must inspect the shipment for any damage or discrepancies and report them to us within 24 hours.

### FAQ:

Q: Where is the Galvanized Channel Steel produced?

A: The Galvanized Channel Steel is produced in Hebei, China.

Q: What certifications does the Galvanized Channel Steel have?

A: The Galvanized Channel Steel is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Channel Steel?

A: The minimum order quantity for the Galvanized Channel Steel is negotiable.

Q: What is the price of the Galvanized Channel Steel?

A: The price of the Galvanized Channel Steel is negotiable.

Q: How is the Galvanized Channel Steel packaged and delivered?

A: The Galvanized Channel Steel is packaged according to customer needs, and delivered within 15-30 work days.

Q: What are the payment terms for the Galvanized Channel Steel?

A: The payment terms for the Galvanized Channel Steel are TT.
