

Corrosion Resistant Class 4 Galvanized Steel U Type Halfen Track Hot Dip Smooth

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Material: Galvanized Steel
- Fire Resistance: Class A1
- Application: Concrete Structures, Industrial Buildings, Bridges, Etc.
- Installation Type: Welded Or Bolted
- Shape: U-type
- Surface Treatment: Hot-dip Galvanized
- Thickness: Customization
- Surface Treatment: Smooth
- Thread Pitch: 13|20|28
- Steel Grade: 201 304 316L
- Highlight: **u type halfen track, halfen track hot dip, galvanized halfen channel**

Product Description

Product Description:

Designed with a U-type shape and a height of 21mm, the Halfen Channel product is perfect for securing C-shaped groove embedded parts in a variety of applications. Whether you need to reinforce a concrete structure or build a bridge that can withstand heavy loads, this product has the strength and durability you need.

In addition to its sturdy design, the Halfen Channel product also boasts impressive corrosion resistance. With a Class 4 rating, you can trust that this product will withstand even the harshest environmental conditions without rusting or deteriorating over time. This makes it an excellent choice for outdoor applications where exposure to moisture and other corrosive elements is a concern.

Overall, the Halfen Channel product is a top choice for anyone looking for a reliable and efficient solution for their concrete structures, industrial buildings, and bridges. With its U-type shape, 21mm height, Class 4 corrosion resistance, and Class A1 fire resistance, this product is built to last and can withstand even the toughest conditions. So why wait? Choose Halfen Embedded Parts for your next project and experience the difference for yourself!

Technical Parameters:

Product Name:	Halfen Channel
Shape:	U-type
Height:	21mm
Length:	Customization
Width:	Customization
Load Capacity:	4.5kN
Surface Treatment:	Hot-dip Galvanized
Processing Service:	Welding
Installation Type:	Welded or Bolted
Weight:	Based on Size
Surface Treatment:	Smooth
Additional Attributes:	High strength embedded parts, Halfen Groove

Applications:

The Halfen Channel product is suitable for a variety of application occasions and scenarios. Its primary use is in concrete construction projects, where it can be used to securely anchor fixtures and fittings into the concrete structure. This product is also commonly used in bridge construction, where it can be used to provide support for the bridge deck. Additionally, the Halfen Channel product is ideal for use in the construction of tunnels, where it can be used to anchor lighting fixtures, ventilation systems, and other important components.

The Halfen Channel product is available in a range of thicknesses, and its weight is based on the size of the product. It can be customized to meet the specific requirements of any construction project, with lengths and thicknesses that can be tailored to suit the needs of the project. The product has a height of 21mm, which makes it ideal for use in a variety of different construction scenarios.

The Halfen Channel product is also treated with a hot-dip galvanization process, which provides an additional layer of protection against corrosion and other forms of damage. This makes it a durable and reliable choice for use in even the harshest of environments.

In summary, the Halfen Channel product is a high-quality and versatile solution for a wide range of construction applications. Its strength, durability, and customization options make it an ideal choice for use in concrete, bridge, and tunnel construction projects, among others.

Packing and Shipping:

Product Packaging:

The Halfen Channel product will be packaged in a sturdy cardboard box.

The box will be sealed with adhesive tape to ensure it stays secure during transportation.

The product will be wrapped in bubble wrap to protect it from any damage during shipping.

Shipping:

The Halfen Channel product will be shipped via a trusted courier service.

The delivery time will depend on the destination and shipping method selected at checkout.

A tracking number will be provided so that customers can track the progress of their shipment.

Please ensure that the shipping address provided is accurate and complete to avoid any delays or issues with delivery.

FAQ:

Q: What is the place of origin for Halfen Channel?

A: Halfen Channel is manufactured in Hebei, China.

Q: Does Halfen Channel have any certifications?

A: Yes, Halfen Channel is certified with ISO9001.

Q: Is there a minimum order quantity for Halfen Channel?

A: The minimum order quantity for Halfen Channel is negotiable.

Q: What is the price of Halfen Channel?

A: The price of Halfen Channel is negotiable.

Q: How is Halfen Channel packaged for delivery?

A: Halfen Channel is packaged according to customer needs.

Q: What is the delivery time for Halfen Channel?

A: The delivery time for Halfen Channel is 15-30 work days.

Q: What are the payment terms for Halfen Channel?

A: The payment terms for Halfen Channel are TT.
