

Customization Length Welded Or Bolted Embedded Parts Height 21mm

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Installation Type: Welded Or Bolted
- Application: Concrete Structures, Industrial Buildings, Bridges, Etc.
- Length: 80 100 120 mm
- Fire Resistance: Class A1
- Weight: Based On Size
- Corrosion Resistance: Class 4
- Height: 21mm
- Processing Service: Welding
- Strength Grade: Level 4.8
- Highlight: **bolted embedded parts,**
customization embedded parts,
customization halfen channel

Product Description

Product Description:

The Halfen Channel has a height of 21mm, which makes it suitable for a wide range of applications. Its size and shape allow it to be easily integrated into various construction projects, including buildings, bridges, and other structures. Another benefit of the Halfen Channel is its weight, which is based on size. This makes it easy to work with and install, allowing builders and contractors to save time and effort during the construction process. Finally, the Halfen Channel is designed for ease of use and processing. It is easily welded, making it a versatile option for a variety of construction projects. Overall, the Halfen Channel is a reliable and durable product that is ideal for use in a wide range of construction applications. Its corrosion resistance, hot-dip galvanized surface treatment, height, weight, and processing service make it a popular choice for builders and contractors around the world. Whether you're working on a large commercial construction project or a smaller residential build, the Halfen Channel is sure to meet your needs.

Technical Parameters:

C-shaped groove embedded parts	Halfen Groove
Length	Customization
Installation Type	Welded or Bolted
Surface Treatment	Hot-dip Galvanized
Weight	Based on size
Height	21mm
Processing Service	Welding
Load Capacity	4.5kN
Surface Treatment	Smooth
Material	Galvanized Steel
Application	Concrete Structures, Industrial Buildings, Bridges, etc.

Applications:

The Halfen Channel product is a versatile and reliable solution for construction projects that require strong and durable embedded parts. It can be installed using either welding or bolting depending on the specific application and project requirements. The smooth surface treatment of the Halfen Channel product ensures that it is easy to handle and install.

Whether you are building a new industrial facility or renovating an existing concrete structure, the Halfen Embedded Parts can provide the support and stability you need. The product is available in various packaging options, which can be tailored to meet your specific needs and preferences.

The Halfen Channel product is a high-quality solution that is designed to withstand the demands of tough construction environments. The minimum order quantity is negotiable, and the price is also negotiable depending on the specific requirements of your project. Delivery time typically takes 15-30 work days, and payment terms are TT.

In summary, the Halfen Channel product is a reliable and versatile solution for a wide range of construction projects. Its high strength embedded parts make it suitable for use in concrete structures, industrial buildings, bridges, and other applications. With its customizable size and length, smooth surface treatment, and easy installation options, the Halfen Channel product is a smart choice for any construction project.

Packing and Shipping:

Product Packaging:

The Halfen Channel product is packaged in a sturdy cardboard box that is designed to protect the product during shipping and handling. The product is securely wrapped in plastic to prevent any damage or scratches during transit.

Shipping Information:

We offer standard shipping options for the Halfen Channel product. Shipping times may vary depending on the destination, but most orders are processed and shipped within 1-2 business days. We also offer expedited shipping options for customers who need their products delivered more quickly. Please note that additional shipping fees may apply for expedited shipping.

FAQ:

Question 1: What is the place of origin for Halfen Channel?

The Halfen Channel is manufactured in Hebei, China.

Question 2: What certifications does the Halfen Channel have?

The Halfen Channel has the ISO9001 certification.

Question 3: What is the minimum order quantity for Halfen Channel?

The minimum order quantity for Halfen Channel is negotiable.

Question 4: What is the price for Halfen Channel?

The price for Halfen Channel is negotiable.

Question 5: What are the packaging details and delivery time for Halfen Channel?

The packaging details for Halfen Channel are according to customer needs. The delivery time is 15-30 work days.

Question 6: What are the payment terms for Halfen Channel?

The payment terms for Halfen Channel are TT.
