

## Class 4 U Type Hot Dip Galvanized Halfen Channel Corrosion Resistance with Customizable Configuration

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

#### Product Specification

- Shape: U-type
- Surface Treatment: Smooth
- Application: Concrete Structures, Industrial Buildings, Bridges, Etc.
- Height: 21mm
- Surface Treatment: Hot-dip Galvanized
- Thickness: Customization
- Weight: Based On Size
- Width: Customization
- Highlight: **galvanized halfen channel, galvanized halfen track, class 4 halfen track**

## Product Description

### Product Description:

Our Halfen Channel is a versatile product that can be installed using either a welded or bolted installation type, making it the perfect choice for a variety of applications. Use it to secure high strength embedded parts in concrete or masonry structures, or as a channel for electrical or mechanical systems.

One of the key features of this product is the Halfen track, which provides a secure and stable base for your embedded parts. This track is designed to work seamlessly with our Halfen Channel, ensuring a reliable and consistent installation every time.

Whether you're working on a large-scale commercial project or a small-scale residential renovation, our Halfen Channel is the perfect choice for high strength embedded parts. With its customizable length and thickness, smooth surface treatment, and versatile installation options, this product is sure to meet your needs.

### Technical Parameters:

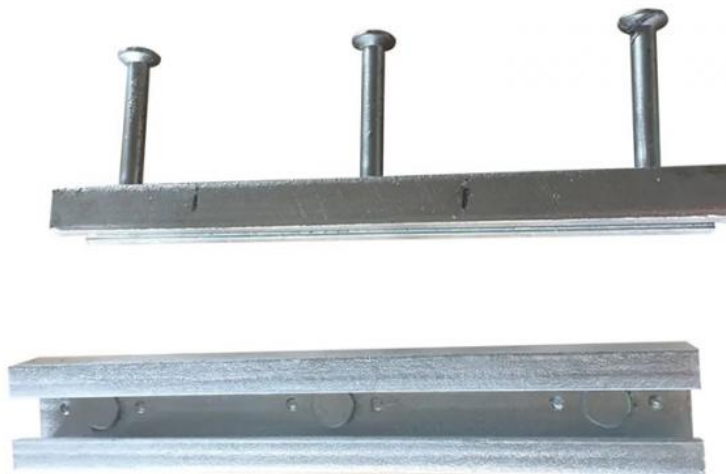

Product Attribute	Technical Parameter
Product Name	Halfen Channel
Installation Type	Welded or Bolted
Application	Concrete Structures, Industrial Buildings, Bridges, etc.
Material	Galvanized Steel
Processing Service	Welding
Fire Resistance	Class A1
Height	21mm
Thickness	Customization
Surface Treatment	Hot-dip Galvanized
Weight	Based on size
Surface Treatment	Smooth
Other Names	Halfen Groove, C-shaped groove embedded parts, Halfen track

### Applications:

The Halfen Channel product is a reliable and high-quality U-shaped channel that is designed for various applications in concrete structures, industrial buildings, bridges, and other construction projects. This product is made in Hebei, China and has the ISO9001 certification, ensuring that it meets the highest standards of quality and safety. The Halfen Channel product is available in different sizes and weights, based on the specific needs of the project.

The Halfen Channel product is a versatile solution for many construction applications. It can be used as C-shaped groove embedded parts that can be welded or bolted to steel structures, concrete walls, and other surfaces. The Halfen Channel product is also known as a Halfen Groove and is easy to install, making it a popular choice among contractors and engineers alike.

The Halfen Channel product is ideal for use in environments where corrosion resistance is a top priority. It has a Class 4 corrosion resistance rating, making it a reliable and durable solution for projects that are exposed to harsh weather conditions and corrosive materials.

## Packing and Shipping:

### Product Packaging:

The Halfen Channel product will be packed in a sturdy cardboard box that will protect it during transportation. The box will be clearly labeled with the product name, quantity, and any necessary handling instructions to ensure safe storage and handling.

### Shipping:

The Halfen Channel product will be shipped via a reliable shipping company. The shipping cost will be calculated based on the destination and weight of the product. The estimated delivery time will be communicated to the customer upon placing the order. The product will be carefully packaged and shipped to ensure that it arrives in good condition.

---

## FAQ:

### Q: What is the Halfen Channel product?

A: The Halfen Channel is a versatile and high-quality steel channel that is used for a variety of applications in the construction industry, such as attaching façade elements and interior fit-outs, as well as for supporting pipework and cable trays.

### Q: Where is the Halfen Channel manufactured?

A: The Halfen Channel is manufactured in Hebei, China.

### Q: What certifications does the Halfen Channel have?

A: The Halfen Channel has been certified with ISO9001, which ensures that our manufacturing processes meet international standards for quality management systems.

### Q: What is the minimum order quantity for the Halfen Channel?

A: The minimum order quantity for the Halfen Channel is negotiable, depending on your specific needs and requirements.

### Q: What is the price of the Halfen Channel?

A: The price of the Halfen Channel is negotiable, depending on the quantity and specifications of your order.

### Q: What are the packaging details for the Halfen Channel?

A: The packaging details for the Halfen Channel can be customized according to your needs, ensuring that the product arrives safely and securely at your site.

### Q: What is the delivery time for the Halfen Channel?

A: The delivery time for the Halfen Channel is typically 15-30 work days, depending on your location and the quantity of your order.

### Q: What are the payment terms for the Halfen Channel?

A: The payment terms for the Halfen Channel are TT (Telegraphic Transfer), which is a secure and reliable method of payment for international transactions.
