

Corrosion Resistant Hot Dipped Galvanized Angles L Shape Carbon Steel Angle Iron DIN17100-80

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Material: Carbon Steel
- Shape: L Shape
- Technology: Hot Rolled Or Cold Rolled
- Name: Angle Steel
- Surface Treatment: Galvanized
- Application: Construction, Machinery, Shipbuilding, Etc.
- Processing Services: Welding And Cutting
- Standard: DIN17100-80
- Theoretical Weight: 1.91kg/m
- Highlight: **carbon steel angle iron din17100-80 ,
galvanized angles l shape,
l shape carbon steel angle iron**

Product Description

Product Description:

Our Galvanized L-Angle Steel is available in both hot-rolled and cold-rolled technologies, so you can choose the one that best suits your needs. It also features a surface made of mild steel plain, which makes it easier to weld and work with. This low carbon equal angle steel is versatile and can be used for a wide range of applications, including building frames, brackets, shelves, and more. It is also ideal for outdoor use, as the galvanized coating provides excellent resistance to corrosion and rust. At our company, we take pride in ensuring that our products are of the highest quality. That's why we use only the best materials and employ strict quality control measures to ensure that our customers receive only the best products. We also offer flexible shipment options, including container and customized options, to ensure that your order is delivered to you in the most convenient and timely manner possible.

Technical Parameters:

Processing Services	Welding And Cutting
Shape	L Shape
Production Capacity	5000 Tons Per Month
Technology	Hot Rolled Or Cold Rolled
Application	Construction, Machinery, Shipbuilding, Etc.
Technology	Hot Dipped
Surface Treatment	Galvanized
Shipment	Container Or As Your Request
Quality	High Quality. Inspection
Surface	Mild Steel Plain

Applications:

Galvanized Angle Steel is available in various shapes and sizes, including L shapes, which are commonly used in construction projects. The product is manufactured in Hebei, China, and is certified to meet ISO9001 standards. The minimum order quantity for this product is negotiable, and the price is also negotiable depending on the quantity ordered. The product is shipped according to customer needs, and the delivery time is typically 15-30 work days.

This product is ideal for a wide range of applications, including structural framing, support brackets, and decorative accents. It is a popular choice for building and construction projects because of its high strength, durability, and resistance to corrosion. The product is available in hot-rolled galvanized steel and slotted cold drawn angle steel, and can be processed through welding and cutting services to meet specific design requirements.

In conclusion, Galvanized Angle Steel is a high-quality construction material that offers excellent durability, strength, and corrosion resistance. It is available in various shapes and sizes, including L shapes, and can be processed through welding and cutting services to meet specific design requirements. The product is manufactured in Hebei, China, and is certified to meet ISO9001 standards. The minimum order quantity is negotiable, and the price is also negotiable depending on the quantity ordered. The product is shipped according to customer needs, and the delivery time is typically 15-30 work days.

Packing and Shipping:

Product Packaging: This Galvanized Angle Steel product will be packaged securely to ensure safe delivery to your location. The product will be wrapped in protective material to prevent any damage during shipping. **Shipping:** We offer reliable shipping services with tracking information provided. Delivery times may vary based on your location. Please ensure that the shipping address provided is accurate and complete. Thank you for choosing our Galvanized Angle Steel product. If you have any questions or concerns, please do not hesitate to contact us.

FAQ:

Q1: What is Galvanized Angle Steel?

Galvanized Angle Steel is a type of steel that has been coated with a layer of zinc to protect it from rust and corrosion. It is commonly used in construction, manufacturing, and other industries where strength and durability are important.

Q2: Where is Galvanized Angle Steel made?

Galvanized Angle Steel is made in Hebei, China.

Q3: Is Galvanized Angle Steel certified?

Yes, Galvanized Angle Steel is certified with ISO9001.

Q4: What is the minimum order quantity for Galvanized Angle Steel?

The minimum order quantity for Galvanized Angle Steel is negotiable.

Q5: What are the payment terms for Galvanized Angle Steel?

The payment terms for Galvanized Angle Steel are TT (Telegraphic Transfer).

Q6: What is the price of Galvanized Angle Steel?

The price of Galvanized Angle Steel is negotiable.

Q7: What are the packaging details for Galvanized Angle Steel?

The packaging details for Galvanized Angle Steel are according to customer needs.

Q8: What is the delivery time for Galvanized Angle Steel?

The delivery time for Galvanized Angle Steel is 15-30 work days.
