

Mild Steel Plain Hot Dipped Galvanized L Shape Steel Angle For Carbon Steel Construction

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Name: Angle Steel
- Surface: Mild Steel Plain
- Application: Construction, Machinery, Shipbuilding, Etc.
- Surface Treatment: Galvanized
- Shipment: Container Or As Your Request
- Quality: High Quality. Inspection
- Processing Services: Welding And Cutting
- Shape: L Shape
- Specifications: 100mm
- Standard: DIN17100-80
- Highlight: construction l angle steel ,
construction l shape steel angle ,
l shape l angle steel

Product Description

Product Description:

Our Galvanized Angle Steel comes in an L shape, perfect for providing structural support and stability to buildings. It is made from low carbon equal angle steel, ensuring that it is durable and can withstand heavy loads. The slotted cold drawn angle steel surface provides added grip and support, making it ideal for use in different types of environments.

We offer processing services such as welding and cutting, so you can customize the Galvanized Angle Steel according to your project specifications. This service ensures that you get the right size and shape that you need for your project. Our team of experts will assist you in every step of the way, and we guarantee that your customizations will not affect the quality of the product.

Overall, our Galvanized Angle Steel is a high-quality product that is perfect for various construction projects. It is durable, customizable, and has an added layer of protection against corrosion. With our processing services and the latest technology in the industry, we guarantee that our product will meet and exceed your expectations.

Technical Parameters:

Name	Galvanized L-Angle Steel
Shape	L Shape
Shipment	Container Or As Your Request
Technology	Hot Rolled Or Cold Rolled
Quality	High Quality. Inspection
Processing Services	Welding And Cutting
Material	Carbon Steel
Application	Construction, Machinery, Shipbuilding, Etc.
Surface Treatment	Galvanized
Surface	Mild Steel Plain

Applications:

One common application for galvanized angle steel is in the construction industry. It can be used to create support structures for buildings, bridges, and other large structures. The slotted cold drawn angle steel is ideal for this type of application because it is easy to cut, weld, and shape into the required dimensions. The galvanized L-angle steel is also resistant to rust and corrosion, making it a durable choice for outdoor applications.

Another common use for galvanized angle steel is in the manufacturing industry. Coated L-shaped iron is often used in the production of machinery and equipment. It can be used to create frames, brackets, and other support structures that are needed to hold heavy equipment in place. The high production capacity of this product, at 5000 tons per month, makes it a reliable choice for manufacturers who need a steady supply of high-quality materials.

In addition to construction and manufacturing, galvanized angle steel can also be used in a variety of other settings. For example, it can be used to create shelving and storage units in warehouses and retail spaces. It can also be used in DIY projects, such as creating custom furniture or home decor items. The processing services of welding and cutting make it easy to work with, even for those with limited experience in metalworking.

Packing and Shipping:

Product Packaging:

The Galvanized Angle Steel will be securely packed in a cardboard box.

The box will be sealed with tape to prevent any damage during shipping.

The product will be labeled with the product name, quantity, and any other necessary information.

Shipping:

The Galvanized Angle Steel product will be shipped through a reliable shipping company.
The shipping cost will be calculated based on the weight and destination of the product.
The estimated delivery time will vary depending on the location of the customer.
The customer will be provided with a tracking number to monitor the progress of their shipment.

FAQ:

Q: Where is the Galvanized Angle Steel product from?

A: The Galvanized Angle Steel product is from Hebei, China.

Q: Is the Galvanized Angle Steel product certified?

A: Yes, the Galvanized Angle Steel product is certified with ISO 9001.

Q: What is the minimum order quantity for the Galvanized Angle Steel product?

A: The minimum order quantity for the Galvanized Angle Steel product is negotiable.

Q: How much does the Galvanized Angle Steel product cost?

A: The price of the Galvanized Angle Steel product is negotiable.

Q: How are the Galvanized Angle Steel products packaged?

A: The Galvanized Angle Steel products are packaged according to the customer's needs.

Q: What is the delivery time for the Galvanized Angle Steel product?

A: The delivery time for the Galvanized Angle Steel product is 15-30 work days.

Q: What are the payment terms for the Galvanized Angle Steel product?

A: The payment terms for the Galvanized Angle Steel product are TT.
