

Galvanized Steel L Angle Profile Hot And Cold Rolled Mild Steel 200x200x12

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Shape: L Shape
- Production Capacity: 5000 Tons Per Month
- Processing Services: Welding And Cutting
- Technology: Hot Dipped
- Quality: High Quality. Inspection
- Surface Treatment: Galvanized
- Application: Construction, Machinery, Shipbuilding, Etc.
- Texture Of Material: Q235
- Highlight: 200x200x12 l angle steel,
200x200x12 galvanized steel l angle ,
cold rolled l angle steel

Product Description

Product Description:

Galvanized Angle Steel is made from high-quality steel that has been coated with a layer of zinc to protect against corrosion. This process, known as galvanization, helps to extend the lifespan of the product and reduce maintenance costs over time. The galvanized coating also provides a smooth and polished look that is aesthetically pleasing and easy to clean.

One of the key advantages of Galvanized Angle Steel is its versatility. This product can be used in a wide range of applications, including structural support, bracing, framing, and more. Additionally, Galvanized Angle Steel is available in a variety of sizes, thicknesses, and lengths to meet the specific needs of your project.

When it comes to shipping, Galvanized Angle Steel can be shipped in containers or as per your request. This ensures that the product arrives at your location safely and securely, ready for installation. Whether you are building a new structure, repairing machinery, or working on a shipbuilding project, Galvanized Angle Steel is an excellent choice for your needs.

Features:

Slotted cold drawn angle steel

Low carbon equal angle steel

High strength and durability

Corrosion-resistant

Easy to install and maintain

Available in various sizes and thicknesses

Technical Parameters:

Technical Parameter	Description
Name	Galvanized Angle Steel
Surface	Mild Steel Plain
Surface treatment	Galvanized
Production Capacity	5000 Tons Per Month
Quality	High Quality. Inspection
Technology	Hot Rolled Or Cold Rolled
Processing services	Welding And Cutting
Material	Carbon Steel
Application	Construction, Machinery, Shipbuilding, Etc.
Technology	Hot Dipped
Other names	Slotted cold drawn angle steel, Low carbon equal angle steel

Applications:

Construction: Galvanized Angle Steel is often used in the construction industry for structural support. It is commonly used to create frames for buildings, bridges, and other structures. The galvanized coating provides extra protection against rust and corrosion, making it a durable and long-lasting option.

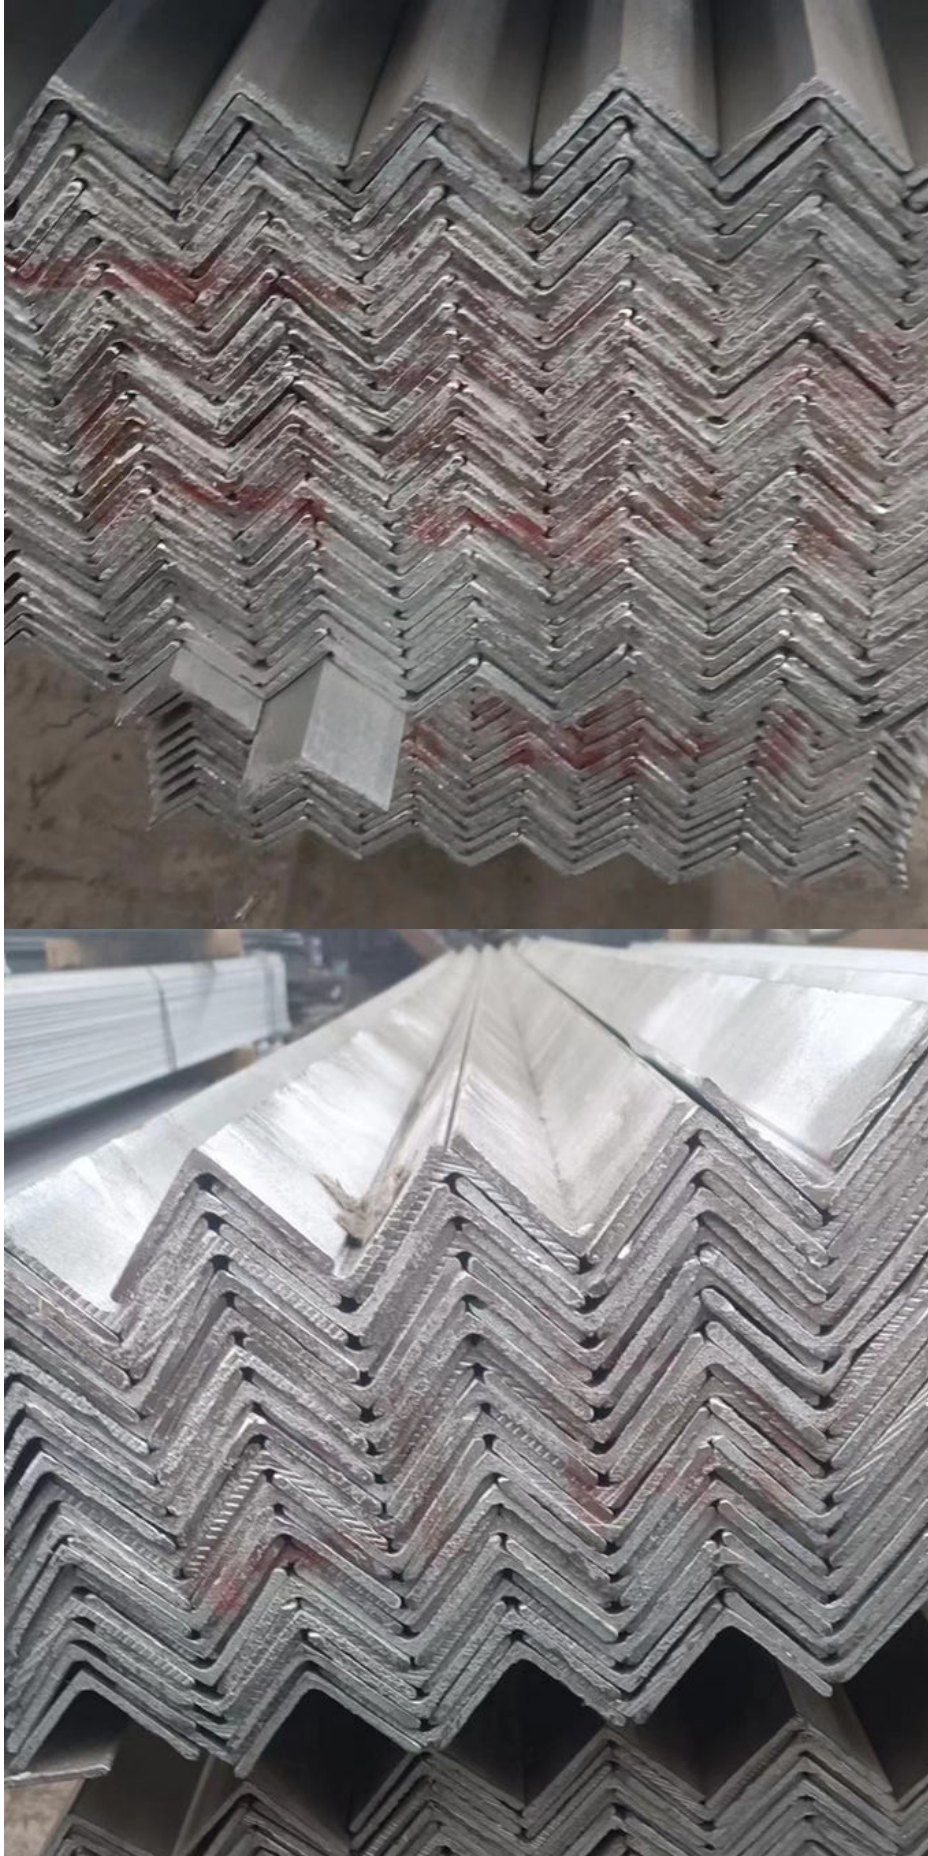

Furniture: Galvanized L-Angle Steel is also used in the manufacturing of furniture, especially outdoor furniture. The galvanized coating makes it resistant to weathering and rust, which is essential for outdoor use. It is commonly used for chair frames, table legs, and other furniture components.

Automotive: Hot-rolled galvanized steel is commonly used in the automotive industry for the manufacturing of vehicle frames, chassis, and other components. The galvanized coating provides extra protection against rust and corrosion, which is important for the longevity and safety of vehicles.

Manufacturing: Galvanized Angle Steel is used in a wide range of manufacturing processes. It is commonly used for the fabrication of metal structures, industrial equipment, and machinery components. The galvanized coating provides protection against rust and corrosion, which is important for the durability and longevity of these products.

DIY Projects: Galvanized L-Angle Steel is a popular choice for DIY projects. It can be used for a variety of applications, such as creating shelving units, building garden beds, and making decorative items. The galvanized coating provides protection against rust and corrosion, making it a durable and long-lasting option for DIY enthusiasts.

Galvanized Angle Steel is a versatile product that can be customized to meet your specific needs. It is available in a variety of sizes and thicknesses, and can be cut and welded to create custom shapes and sizes. It is also available in different packaging options to meet your specific needs.

Packing and Shipping:

Product Packaging:

Galvanized Angle Steel will be securely packed in bundles.

Each bundle will be wrapped with polypropylene sheets.

Steel straps will be used to fasten the bundle.

Shipping:

The Galvanized Angle Steel will be shipped through a reliable freight service.

The shipping cost will be calculated based on the weight and destination.

The delivery time will depend on the location and shipping method chosen.

The product will be delivered to the address provided by the customer.

FAQ:

Q: What is Galvanized Angle Steel?

A: Galvanized Angle Steel is a type of steel product that has been coated with a layer of zinc to protect it from corrosion.

Q: What are the dimensions of Galvanized Angle Steel?

A: The dimensions of Galvanized Angle Steel vary depending on the specific product. However, standard sizes range from 20x20x3mm to 200x200x24mm.

Q: What is the minimum order quantity for Galvanized Angle Steel?

A: The minimum order quantity for Galvanized Angle Steel is negotiable.

Q: What is the price of Galvanized Angle Steel?

A: The price of Galvanized Angle Steel is negotiable and depends on the quantity ordered and other factors.

Q: What is the delivery time for Galvanized Angle Steel?

A: The delivery time for Galvanized Angle Steel is typically 15-30 work days after receipt of payment.

Q: What are the payment terms for Galvanized Angle Steel?

A: The payment terms for Galvanized Angle Steel are TT (telegraphic transfer).

Q: Where is Galvanized Angle Steel manufactured?

A: Galvanized Angle Steel is manufactured in Hebei, China.

Q: Is Galvanized Angle Steel certified?

A: Yes, Galvanized Angle Steel is certified with ISO9001.

Q: How is Galvanized Angle Steel packaged?

A: Galvanized Angle Steel is packaged according to customer needs.
