

## Hot Dipped Steel Equal Angle Hot Rolled / Galvanised L Angle Steel For Construction

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

#### Product Specification

- Technology: Hot Rolled Or Cold Rolled
- Application: Construction, Machinery, Shipbuilding, Etc.
- Surface: Mild Steel Plain
- Standard: DIN17100-80
- Surface Treatment: Galvanized
- Shipment: Container Or As Your Request
- Shape: L Shape
- Name: Angle Steel
- Highlight: **construction l angle steel ,  
construction galvanised l angle,  
hot rolled l angle steel**

## Product Description

### Product Description:

Made from low carbon equal angle steel and slotted cold drawn angle steel, our Galvanized Angle Steel offers superior strength and durability that can withstand even the toughest conditions. With a hot-dipped technology process and galvanized surface treatment, our angle steel is highly resistant to corrosion, rust, and other types of damage caused by exposure to the elements.

Our Galvanized Angle Steel is available in a range of sizes and specifications to suit your specific needs. Whether you need small or large quantities, we can accommodate your shipment requirements with either container or as your request shipment options.

With its excellent quality and reliable performance, our Galvanized Angle Steel is the ideal choice for a variety of applications. From construction and machinery to shipbuilding and other heavy industries, our angle steel is designed to provide superior strength and durability that can withstand even the most demanding environments.

### Technical Parameters:

Product Name:	Galvanized Angle Steel
Material:	Low carbon equal angle steel
Technology:	Hot Dipped
Production Capacity:	5000 Tons Per Month
Quality:	High Quality. Inspection
Application:	Construction, Machinery, Shipbuilding, Etc.
Processing Services:	Welding And Cutting
Surface:	Mild Steel Plain
Shape:	L Shape

### Applications:

Galvanized Angle Steel is a versatile product that has a wide range of applications in various industries. It is one of the most commonly used structural steel products due to its high strength, durability, and cost-effectiveness. The product is made in Hebei, China and has been certified with ISO9001, ensuring its high quality and reliability.

The Galvanized Angle Steel is an L-shaped product that is used in a variety of scenarios. It is commonly used in the construction industry for the creation of frames, supports, and other structural components. The slotted cold drawn angle steel version of the product is used in the installation of electrical and mechanical systems, as well as for cable support and pipe support systems. In addition to the construction industry, the Galvanized L-Angle Steel is also used in the machinery and shipbuilding sectors, where it is used for the creation of heavy-duty components and equipment.

The product is available in various sizes and thicknesses, making it suitable for a wide range of applications. It is also available in customized sizes and packaging, according to the customer's needs. The minimum order quantity is negotiable, and the price is also negotiable based on the order quantity and other factors.

### **Packing and Shipping:**

**Product Name:** Galvanized Angle Steel

**Product Description:** Galvanized Angle Steel is a type of steel that has been galvanized to provide protection against corrosion. It is commonly used in construction and manufacturing industries for various applications such as framing, support structures, and brackets.

**Packaging:** The Galvanized Angle Steel product will be packaged in bundles, securely fastened with steel straps and covered with plastic sheets to protect against moisture and dust. Each bundle will be labeled with the product name, dimensions, and quantity.

**Shipping:** The Galvanized Angle Steel product will be shipped via truck or container, depending on the quantity ordered. The product will

be loaded onto pallets and secured with straps to prevent movement during transit. The shipping documents will include the product name, dimensions, weight, and quantity for easy identification and tracking.

**FAQ:**

**Q1. What is Galvanized Angle Steel?**

A1. Galvanized Angle Steel is a type of steel product that has been coated with a layer of zinc to prevent rusting and corrosion. It is often used in construction and manufacturing applications.

**Q2. Where is Galvanized Angle Steel produced?**

A2. Galvanized Angle Steel is produced in Hebei, China.

**Q3. Is Galvanized Angle Steel certified?**

A3. Yes, Galvanized Angle Steel is certified with ISO9001.

**Q4. What is the minimum order quantity for Galvanized Angle Steel?**

A4. The minimum order quantity for Galvanized Angle Steel is negotiable.

**Q5. What are the payment terms for Galvanized Angle Steel?**

A5. The payment terms for Galvanized Angle Steel are TT (Telegraphic Transfer).

**Q6. What are the packaging details for Galvanized Angle Steel?**

A6. The packaging details for Galvanized Angle Steel are according to customer needs.

**Q7. What is the delivery time for Galvanized Angle Steel?**

A7. The delivery time for Galvanized Angle Steel is 15-30 work days.

**Q8. Is the price for Galvanized Angle Steel negotiable?**

A8. Yes, the price for Galvanized Angle Steel is negotiable.
