

Galvanized Angle Steel Low Carbon Equal Angle Steel L Shape Carbon Steel 1.91kg/m

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Quality: High Quality. Inspection
- Name: Angle Steel
- Surface Treatment: Galvanized
- Technology: Hot Dipped
- Material: Carbon Steel
- Processing Services: Welding And Cutting
- Shipment: Container Or As Your Request
- Shape: L Shape
- Theoretical Weight: 1.91kg/m
- Highlight: **low carbon equal angle steel ,
galvanized angle steel low carbon ,
equal angle steel I shape**

Product Description

Product Description:

This angle steel is commonly used in construction projects and other industrial applications due to its strength and versatility. It is available in various sizes and lengths to suit different project requirements.

The hot-dipped technology used in the production of this angle steel ensures that it is resistant to rust and corrosion, making it suitable for use in outdoor environments. The mild steel plain surface also adds to its durability and strength, making it a reliable choice for heavy-duty applications.

This Galvanized Angle Steel is also available in slotted cold drawn angle steel and hot-rolled galvanized steel variations, which offer even more flexibility in terms of application and usage. The slotted cold drawn angle steel is ideal for use in shelving and framing applications, while the hot-rolled galvanized steel is suitable for use in structural support and reinforcement applications.

When it comes to shipping, this Galvanized Angle Steel can be shipped in containers or as per the customer's request. This ensures that it arrives at the destination safely and without any damage.

Features:

Product Name: Galvanized Angle Steel

Quality: High Quality. Inspection

Surface treatment: Galvanized

Processing services: Welding And Cutting

Name: Angle Steel

Shape: L Shape

Keywords: Galvanized Angle Steel, Galvanized L-Angle Steel, Coated L-Shaped Iron

Technical Parameters:

Product Name	Galvanized Angle Steel
Material	Low carbon equal angle steel, Carbon Steel
Shape	L Shape
Technology	Hot Dipped, Hot Rolled Or Cold Rolled
Surface	Mild Steel Plain
Processing services	Welding And Cutting
Quality	High Quality. Inspection
Application	Construction, Machinery, Shipbuilding, Etc.
Production Capacity	5000 Tons Per Month
Shipment	Container Or As Your Request

Applications:

The Galvanized Angle Steel is made with hot-dipped technology, which makes it a hot-rolled galvanized steel product. It has a mild steel plain surface that makes it durable and able to withstand harsh weather conditions. This product is versatile and can be used in various applications and occasions. Here are some of the scenarios where the Galvanized Angle Steel product can be applied:

Construction: The Galvanized Angle Steel is commonly used in the construction industry to create stable and durable structures. It is useful in building frames, roofing systems, and supporting beams. Its hot-rolled galvanized steel nature ensures that it is strong enough to handle the weight of the building.

Infrastructure: When building infrastructure projects, Galvanized Angle Steel is used to create bridges, dams, and roads. Its hot-rolled galvanized steel nature makes it strong enough to withstand the weight of heavy-duty machinery and the harsh weather conditions.

Manufacturing: Galvanized Angle Steel is used in manufacturing industries to create machines and equipment that require structural stability. Its mild steel plain surface and hot-rolled galvanized steel nature ensure that it can withstand the wear and tear of continuous use.

Decorative: In addition to its structural applications, Galvanized Angle Steel is useful in creating decorative features. It can be used as a trim or molding to add a finishing touch to a building or furniture.

Packing and Shipping:

Product Packaging:

The Galvanized Angle Steel product will be packaged securely to ensure safe delivery to our customers. The angles will be wrapped in plastic film and then packed in bundles. These bundles will be secured with steel straps to prevent any movement during shipping.

Shipping:

We offer shipping services to our customers worldwide. The shipping cost will be calculated based on the weight and destination of the order. The Galvanized Angle Steel product will be shipped via a reliable carrier to ensure timely delivery and safe arrival of the product.

FAQ:

Here are some frequently asked questions about our Galvanized Angle Steel product:

Q: What is Galvanized Angle Steel?

A: Galvanized Angle Steel is a type of steel that has been coated with a layer of zinc to help prevent rust and corrosion.

Q: Where is your Galvanized Angle Steel produced?

A: Our Galvanized Angle Steel is produced in Hebei, China.

Q: Is your Galvanized Angle Steel certified?

A: Yes, our Galvanized Angle Steel is certified with ISO9001.

Q: What is the minimum order quantity for your Galvanized Angle Steel?

A: The minimum order quantity for our Galvanized Angle Steel is negotiable.

Q: What is the price of your Galvanized Angle Steel?

A: The price of our Galvanized Angle Steel is negotiable.

Q: How is your Galvanized Angle Steel packaged?

A: Our Galvanized Angle Steel is packaged according to customer needs.

Q: What is the delivery time for your Galvanized Angle Steel?

A: The delivery time for our Galvanized Angle Steel is 15-30 work days.

Q: What are the payment terms for your Galvanized Angle Steel?

A: The payment terms for our Galvanized Angle Steel are TT.
