

Welding and Cutting L Shape Galvanized Angle Steel Carbon Steel 100mm Production Services

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Processing Services: Welding And Cutting
- Name: Angle Steel
- Shape: L Shape
- Surface Treatment: Galvanized
- Application: Construction, Machinery, Shipbuilding, Etc.
- Material: Carbon Steel
- Production Capacity: 5000 Tons Per Month
- Technology: Hot Dipped
- Specifications: 100mm
- Highlight: I shape galvanized angle steel,
welding galvanised angle,
welding galvanized angle steel

Product Description

Product Description:

Our low carbon equal angle steel boasts superior durability and strength, making it the perfect choice for a wide range of applications. Plus, our hot-rolled galvanized steel surface treatment ensures optimal resistance to rust and corrosion, ensuring that your construction projects will stand the test of time.

Whether you need a small quantity of angle steel for a DIY project or are looking to order in bulk for a larger construction job, we can accommodate your shipment needs. Choose between container or customized shipment options to ensure that your order arrives on time and in perfect condition.

Order now to experience the unbeatable quality and durability of our galvanized angle steel product. With our commitment to excellence and customer satisfaction, you can trust that your order will arrive on time and meet your exact specifications.

Technical Parameters:

Product Attribute	Value
Name	Angle Steel
Surface	Mild Steel Plain
Production Capacity	5000 Tons Per Month
Technology	Hot Dipped
Application	Construction, Machinery, Shipbuilding, Etc.
Material	Carbon Steel
Shipment	Container Or As Your Request
Surface Treatment	Galvanized
Shape	L Shape
Processing Services	Welding And Cutting

Applications:

Galvanized Angle Steel is a popular choice for construction, industrial, and mechanical applications due to its excellent strength and corrosion resistance. It is used for building frames, supports, and brackets in construction projects, as well as in machinery and equipment manufacturing. This product is also suitable for use in electrical and telecommunications infrastructure, as it provides a sturdy and reliable base for mounting components.

Galvanized Angle Steel can be processed through welding and cutting services, making it customizable to specific project requirements. The production capacity for this product is 5000 tons per month, ensuring that customers can receive their orders promptly. The surface treatment of this product is galvanized, which provides an extra layer of protection against rust and corrosion.

Some of the occasions and scenarios where Galvanized Angle Steel can be used include:

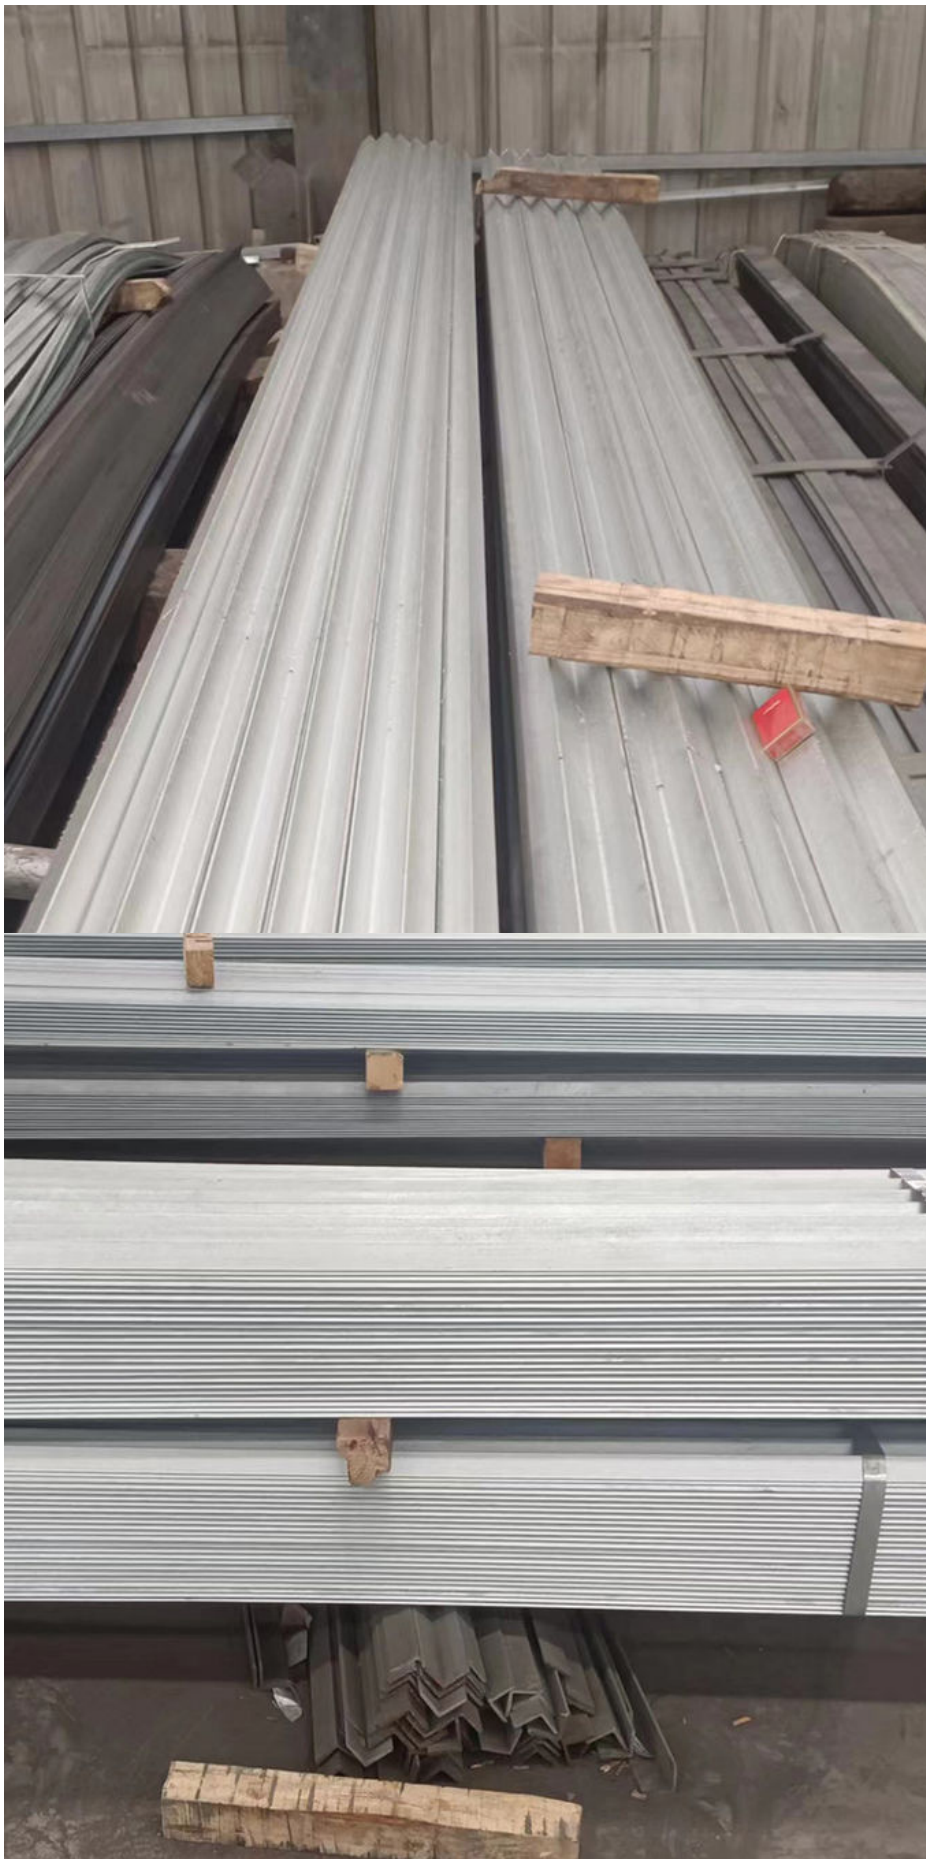

Building frames and supports for construction projects, such as houses, buildings, and bridges

Manufacturing of machinery and equipment, such as conveyor systems, cranes, and agricultural machinery

Electrical and telecommunications infrastructure, such as transmission towers and power distribution systems

Manufacturing of furniture and fixtures, such as shelves, racks, and brackets

Automotive and transportation applications, such as mounting brackets and supports for vehicles and trailers

Packing and Shipping:

Product Packaging:

The Galvanized Angle Steel product will be packaged securely in bundles or wooden cases to prevent damage during transit. Each bundle or case will be clearly labeled with product specifications and handling instructions.

Shipping:

The Galvanized Angle Steel product will be shipped via a reliable and efficient shipping company. The shipping cost will be calculated based on the destination and weight of the product. Customers will be provided with a tracking number to monitor the status of their

shipment.

FAQ:

Q1: What is the place of origin of Galvanized Angle Steel?

A1: The Galvanized Angle Steel is made in Hebei, China.

Q2: Is Galvanized Angle Steel certified?

A2: Yes, the Galvanized Angle Steel is certified with ISO9001.

Q3: What is the minimum order quantity for Galvanized Angle Steel?

A3: The minimum order quantity for Galvanized Angle Steel is negotiable.

Q4: How much does Galvanized Angle Steel cost?

A4: The price of Galvanized Angle Steel is negotiable.

Q5: How is Galvanized Angle Steel packaged and delivered?

A5: The Galvanized Angle Steel is packaged according to customer needs and delivered within 15-30 work days. Payment terms are TT.
