

Hot Dipped Galvanized L Angle L Shaped Angle Steel Profile For Construction Industry

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Name: Angle Steel
- Surface Treatment: Galvanized
- Shipment: Container Or As Your Request
- Quality: High Quality. Inspection
- Processing Services: Welding And Cutting
- Technology: Hot Dipped
- Shape: L Shape
- Texture Of Material: Q235
- Highlight: **construction galvanized l angle ,
construction l shaped angle steel ,
industry galvanized l angle**

Product Description

Product Description:

This Angle Steel comes in a standard size of 20x20x3mm to 200x200x24mm and can be customized as per your requirements. The product is shipped in containers or as per your request, providing flexibility and convenience. The production capacity of this Angle Steel is 5000 Tons per month, ensuring timely delivery even for large-scale projects.

The Galvanized Angle Steel is known for its high quality, and each product undergoes rigorous inspection to ensure that it meets industry standards. This product is widely used in construction, manufacturing, and other industries where L-shaped iron is required. It is versatile and can be used for a wide range of applications, including framing, bracing, and support structures.

This Angle Steel is a low carbon product, which means it has a low carbon content, making it an environmentally friendly product. The low carbon content also makes it easier to work with and weld, making it a popular choice among fabricators and manufacturers.

In conclusion, the Galvanized Angle Steel is a high-quality product that is versatile, durable, and environmentally friendly. Its plain surface and galvanized coating make it an ideal product for outdoor use, where it can withstand harsh weather conditions. It is a cost-effective solution for various industrial applications and is sure to meet your requirements.

Technical Parameters:

Technical Parameter	Description
Name	Galvanized Angle Steel
Material	Carbon Steel
Quality	High Quality. Inspection
Surface Treatment	Galvanized
Technology	Hot Dipped
Shape	L Shape
Processing Services	Welding And Cutting
Technology	Hot-rolled galvanized steel
Application	Construction, Machinery, Shipbuilding, Etc.
Shipment	Container Or As Your Request

Applications:

The Galvanized Angle Steel is also used in the machinery industry for manufacturing machinery components, such as gears, blades, and brackets. The product's strength and durability make it suitable for heavy-duty machines that operate in harsh environments. It is also used in the shipbuilding industry for building ship structures and support frames.

The Galvanized Angle Steel undergoes surface treatment with galvanization, which makes it resistant to corrosion and rust. The product also offers processing services such as welding and cutting, making it easier for customers to customize it according to their needs.

The Galvanized Angle Steel has a production capacity of 5000 tons per month, making it readily available to customers worldwide. The product finds application in various industries and is a cost-effective solution for building robust structures and machinery components.

Packing and Shipping:

Product Packaging:

Galvanized Angle Steel will be packed in bundles with steel strips.

The bundle weight will be between 2-3 tons.

The product will be loaded into containers or shipped in bulk.

Shipping:

Shipping will be arranged within 15-20 days after receipt of payment.

Shipping methods include sea, air, and land transportation.

The shipping cost will be calculated based on the product weight, destination, and shipping method.

FAQ:

Q1: What is Galvanized Angle Steel?

A1: Galvanized Angle Steel is a type of steel product that is coated with zinc to prevent rusting and corrosion. It is commonly used in construction, manufacturing, and other industries where strength and durability are required.

Q2: Where is Galvanized Angle Steel produced?

A2: Our Galvanized Angle Steel is produced in Hebei, China.

Q3: Does Galvanized Angle Steel come with any certification?

A3: Yes, our Galvanized Angle Steel is certified with ISO9001, ensuring that it meets international quality standards.

Q4: What is the minimum order quantity for Galvanized Angle Steel?

A4: The minimum order quantity for our Galvanized Angle Steel is negotiable depending on the customer's requirements.

Q5: What are the payment terms for Galvanized Angle Steel?

A5: We accept TT as the payment method for our Galvanized Angle Steel. Other payment terms may be negotiable depending on the order quantity and customer's creditworthiness.

Q6: What is the delivery time for Galvanized Angle Steel?

A6: The delivery time for our Galvanized Angle Steel is typically 15-30 work days, depending on the order quantity and customer's location.

Q7: How is Galvanized Angle Steel packaged?

A7: Our Galvanized Angle Steel is packaged according to customer needs. We offer various packaging options, including bundles, wooden crates, and steel frames, to ensure that the product is delivered safely and efficiently to our customers.

Q8: Is the price for Galvanized Angle Steel negotiable?

A8: Yes, the price for our Galvanized Angle Steel is negotiable depending on the order quantity and other factors such as payment terms and delivery location.
