

## Hot Rolled Coil Carbon Steel Bar Galvanized Circular Steel Low Hot Rolled In Bundles

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

#### Product Specification

- Technique: Hot Rolled
- Application: Building Materials, Building
- Type: Carbon Steel Bar
- Grade: Coil
- Diameter: Customization
- Packing: In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
- Material: Steel
- Surface Finish: Bright Surface
- Quality Level: A-level
- Highlight: **hot rolled carbon steel bar ,  
hot rolled carbon steel round bar ,  
building carbon steel bar**

## Product Description

### Product Description:

Our steel bar is made of high-quality carbon steel and has a galvanized finish that provides excellent protection against corrosion and rust. This makes it an ideal choice for use in building materials and construction projects.

One of the standout features of our Galvanized Circular Steel Bar is its customizability. You can order the bar in any length you need, ensuring that you have the perfect size for your specific project. Whether you need a long bar for a large construction project or a shorter one for a smaller job, we have you covered.

In addition to its strength and durability, our Galvanized Circular Steel Bar also boasts a sleek and professional look. Its galvanized finish gives it a clean and polished appearance, making it a great choice for any building project that requires a high level of aesthetic appeal.

Overall, our Galvanized Circular Steel Bar is the perfect choice for anyone looking for a reliable and sturdy steel bar for their construction projects. With its customizability, versatility, and sleek appearance, it's the ideal tool for any building project that requires a high level of quality and professionalism.

### Technical Parameters:

Shape:	Round
Type:	Carbon Steel Bar

Zinc Coating:	200g/m2 - 600g/m2
Surface Finish:	Bright Surface
Packing:	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
Technique:	Hot Rolled
Application:	Building Materials, Building
Diameter:	Customization
Length:	Customization

### Applications:

The Galvanized Round Steel Bar is a high-quality product that is manufactured in Hebei, China. It has been certified by ISO9001, ensuring that it meets all the international standards for quality. The minimum order quantity for this product is negotiable, and so is the price. The packaging details can be customized to meet the customer's needs, while the delivery time is between 15-30 work days. This product is made of steel and has a bright surface finish. It is hot-dip zinc coated, with a coating of between 200g/m2 - 600g/m2, making it resistant to corrosion and rust. The steel grade used in its production is Hot Dip Galvanizing. It is available in bundles, waterproof plastic bags, woven bags, etc.

Another application of the Galvanized Round Steel Bar is in the manufacturing of mechanical parts, such as gears, shafts, and bearings. It is also used in the automotive industry for the manufacture of car parts, including chassis, suspension systems, and exhaust systems. This product is also suitable for use in the transportation industry, where it is used in the manufacture of trailers, truck bodies, and other transportation equipment. It is also used in the agricultural industry for the manufacture of equipment such as plows, cultivators, and harrows.

### **Packing and Shipping:**

#### **Product Packaging:**

The Galvanized Round Steel Bar is packaged securely in bundles with steel straps and covered with plastic sheets to protect against moisture and damage during transportation.

#### **Shipping:**

The Galvanized Round Steel Bar is shipped via truck or container depending on the quantity and destination. Shipping times may vary based on distance and location.
