

200g/M2 - 600g/M2 Galvanized Hot Dip Galvanizing Round Steel Bar Hot Rolled Round Steel

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Steel Grade: Hot Dip Galvanizing
- Length: 6-12 Meters
- Shape: Round
- Surface Finish: Bright Surface
- Diameter: Customization
- Zinc Coating: 200g/m2 - 600g/m2
- Surface Treatment: Galvanized
- Grade: Coil
- Highlight: **galvanizing round steel bar , round steel bar hot rolled , 200g hot rolled round steel**

Product Description

Product Description:

The Galvanized Circular Steel Bar is ideal for building materials and construction projects. Its round shape makes it easy to handle and transport, while its galvanized surface treatment enhances its resistance to rust and corrosion. This steel bar is commonly used in building frames, supports, and other structural components that require strength and durability.

The Hot-dip Zinc Coated Round Steel Bar is made by immersing the steel in a bath of molten zinc. This process creates a protective layer on the surface of the steel, which helps to prevent rust and corrosion. The zinc coating also enhances the overall strength and durability of the steel, making it ideal for use in harsh environments and high-stress applications.

In conclusion, if you are looking for a reliable and durable steel bar for your next building project, the Galvanized Round Steel Bar is an excellent option to consider. Its Hot-dip Zinc Coated Round Steel construction, high-grade quality, and galvanized surface treatment make it ideal for use in building materials and construction applications.

Technical Parameters:

Product Name	Solid Galvanized Round Steel Bar
Steel Grade	Hot Dip Galvanizing
Diameter	Customization
Length	Customization
Zinc Coating	200g/m2 - 600g/m2
Technique	Hot Rolled
Surface Treatment	Galvanized
Shape	Round
Surface Finish	Bright Surface
Application	Building Materials, Building
Packing	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.

Applications:

As the diameter of the Galvanized Round Steel Bar is customizable, it can be used in a variety of constructional applications such as columns, beams, and trusses. The hot-rolled technique used in the manufacturing process ensures that the product has a smooth surface finish and is free from any defects that could affect its strength and durability.

The Galvanized Round Steel Bar is available at a negotiable price, with packaging details tailored to meet the customer's needs. The minimum order quantity is also negotiable, making it easier for customers to order the product in smaller quantities. The delivery time is between 15-30 working days, allowing enough time for the customer to plan and prepare for its arrival.

Some of the scenarios in which the Galvanized Round Steel Bar can be used include the construction of buildings, bridges, and other infrastructure. It can also be used to manufacture various tools and equipment used in construction, such as scaffolding and formwork.

The customization options available for the diameter of the product make it versatile and suitable for use in various applications, ensuring that it meets the needs of the customer.

Packing and Shipping:

Product Packaging:

This Galvanized Round Steel Bar product will be packaged in a sturdy cardboard box to ensure safe delivery to your doorstep. Each box will be clearly labeled with the product name and specifications for your convenience.

Shipping:

We offer free standard shipping for this product within the United States. Orders will be processed within 1-2 business days and should arrive at your address within 5-7 business days. Expedited shipping options are also available for an additional fee.

FAQ:

A: The Galvanized Round Steel Bar is manufactured in Hebei, China.

Q: Does the Galvanized Round Steel Bar come with any certification?

A: Yes, the Galvanized Round Steel Bar is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Round Steel Bar?

A: The minimum order quantity for the Galvanized Round Steel Bar is negotiable.

Q: How much does the Galvanized Round Steel Bar cost?

A: The price of the Galvanized Round Steel Bar is negotiable.

Q: How is the Galvanized Round Steel Bar packaged and delivered?

A: The Galvanized Round Steel Bar is packaged according to customer needs and delivered within 15-30 work days. Payment terms are TT.
