

Corrosion Resistant Galvanized Steel Bar Building Materials 600g/m2 Zinc Coating

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

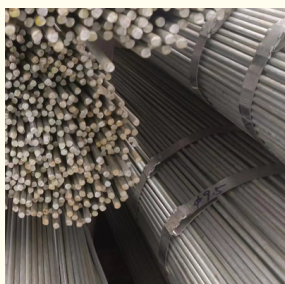

Product Specification

- Application: Building Materials, Building
- Grade: Coil
- Zinc Coating: 200g/m2 - 600g/m2
- Type: Carbon Steel Bar
- Material: Steel
- Technique: Hot Rolled
- Steel Grade: Hot Dip Galvanizing
- Packing: In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
- Quality Level: A-level
- Highlight: **galvanized steel bar building, building galvanized steel round bar, 600g galvanized steel bar**

Product Description

Product Description:

This Solid Galvanized Round Steel Bar is made using a coil grade steel, which means that it is made from long, continuous steel strips that are wound into coils. This technique ensures that the steel is of a consistent quality, with no weak spots or defects. The galvanizing process involves coating the steel with a layer of zinc, which helps to protect it from rust and corrosion. This makes it an ideal choice for outdoor applications, as it can withstand exposure to moisture and other weather-related elements.

Overall, this Solid Galvanized Round Steel Bar is a versatile and durable product that is perfect for a range of industrial applications. Its customizable diameter, hot-dip galvanized steel construction, coil grade steel, and hot-rolling technique make it a top choice for construction, manufacturing, and other industrial projects. Whether you need a strong and sturdy product for use in the construction of buildings or bridges, or you require a reliable and long-lasting material for use in manufacturing processes, this Solid Galvanized Round Steel Bar is an excellent choice.

Technical Parameters:

Zinc Coating	200g/m2 - 600g/m2
Material	Steel
Type	Carbon Steel Bar
Packing	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
Application	Building Materials, Building
Surface Treatment	Galvanized
Surface Finish	Bright Surface
Diameter	Customization
Technique	Hot Rolled
Grade	Coil

Applications:

One of the main benefits of Galvanized Round Steel Bars is their corrosion resistance. The zinc coating provides a protective layer that helps prevent rust and other types of damage, making these bars ideal for outdoor use. They are often used in building materials such as foundations, beams, and columns, as well as in decorative features like railings and fencing.

Galvanized Round Steel Bars are also a popular choice for constructional purposes. Their low hot rolled round bar shape makes them easy to work with, and they can be cut, drilled, and welded to suit a variety of needs. In addition, the galvanized surface treatment gives them a polished appearance that can enhance the overall look of a project.

Overall, Galvanized Round Steel Bars are a reliable and versatile product that can be used in a wide range of applications. Whether you are working on a large-scale construction project or need a durable material for decorative purposes, these bars are an excellent choice. Contact us today to learn more about our Galvanized Round Steel Bars and to place your order.

Packing and Shipping:

Product Packaging:

The Galvanized Round Steel Bar product will be packaged in bundles, securely tied and wrapped with plastic sheets to prevent any damages during transportation.

Shipping:

The product will be shipped via a reliable and certified freight carrier to ensure safe and timely delivery. The shipping cost will be calculated based on the weight and destination of the order.

FAQ:

Q: Where is the Galvanized Round Steel Bar made?

A: The Galvanized Round Steel Bar is made in Hebei, China.

Q: Is the Galvanized Round Steel Bar certified?

A: Yes, the Galvanized Round Steel Bar is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Round Steel Bar?

A: The minimum order quantity for the Galvanized Round Steel Bar is negotiable.

Q: What is the price of the Galvanized Round Steel Bar?

A: The price of the Galvanized Round Steel Bar is negotiable.

Q: How is the Galvanized Round Steel Bar packaged and delivered?

A: The Galvanized Round Steel Bar is packaged according to customer needs and delivered within 15-30 work days. Payment terms are TT.
