

Q235B H Shaped Steel Beam With Galvanized Surface Treatment H Beam Galvanised

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Grade: Q235B, Q345B, SS400, A36, A572 Gr50, S235JR, S355JR
- Shape: H-shaped Cross-section
- Flange Width: 50-400mm
- Packing: In Bundles Or As Required
- Thickness: 5-34mm
- Surface Treatment: Galvanized, Painted, Or As Required
- Material: Carbon Steel
- Size: Customization
- Highlight: **q235b h shaped steel, q235b h beam galvanised, galvanized h shaped steel**

Technical Parameters:

Technical Parameters	Description
Product Name	H Sectional Steel Beam
Flange Width	50-400mm
Flange Thickness	7-34mm
Application	Construction, Bridge, Machinery, Equipment Foundation, Support, Etc.
Thickness	5-34mm
Material	Carbon Steel
Shape	H-shaped Cross-section
Grade	Q235B, Q345B, SS400, A36, A572 Gr50, S235JR, S355JR
Surface Treatment	Galvanized, Painted, Or As Required
Size	Customization
Length	6-12m

Applications:

Made in Hebei, China, our H-Beam product has been certified by ISO9001, ensuring its quality and reliability. The minimum order quantity is negotiable, and the price is also negotiable based on the customer's requirements and order quantity. The packaging details can be customized according to the customer's needs, and our delivery time is 15-30 work days. We accept TT as our payment terms. One of the main application scenarios for our H-Beam product is in the construction of buildings and infrastructure projects. Its load-bearing capacity and customizable size make it a popular choice for structural engineering projects. It is also commonly used in the construction of bridges, tunnels, and other large-scale infrastructure projects.

Another application scenario for our H-Beam product is in the manufacturing of heavy equipment and machinery. Its strength and durability make it a reliable choice for supporting heavy loads and machinery.

Overall, our H-Beam product is a versatile and reliable choice for a wide range of applications and scenarios. Its H-sectional steel beam shape, customizable size, and range of grade options make it a popular choice for construction and structural engineering projects. With our flexible order quantities, negotiable pricing, and customizable packaging options, we can meet the needs of a variety of customers and projects.

Packing and Shipping:

Product Packaging:

The H-Beam product will be securely packaged with protective materials to prevent any damage during transportation.

The product will be bundled together and wrapped with plastic or steel straps to ensure stability and security during shipping.

The package will be labeled with the product name, quantity, and any other necessary information for identification.

Shipping:

The H-Beam product will be shipped via a reliable and reputable shipping carrier.
The shipping carrier will be selected based on the destination, weight, and size of the product.
A tracking number will be provided so the customer can monitor the status of their shipment.

FAQ:

Q: What is the place of origin of the H-Beam product?

A: The H-Beam product is made in Hebei, China.

Q: Does the H-Beam product come with any certification?

A: Yes, the H-Beam product comes with ISO9001 certification.

Q: What is the minimum order quantity for the H-Beam product?

A: The minimum order quantity for the H-Beam product is negotiable.

Q: Is the price of the H-Beam product negotiable?

A: Yes, the price of the H-Beam product is negotiable.

Q: How is the H-Beam product packaged and delivered?

A: The H-Beam product is packaged according to customer needs and delivered within 15-30 work days.

Q: What are the payment terms for the H-Beam product?

A: The payment terms for the H-Beam product is TT.
