

Strength Lightweight Zinc Magnesium Anodized Aluminum Rectangular Tube Corrosion Resistant

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Color: Silver
- Surface Treatment: Zinc Magnesium Aluminum
- Weldability: Good
- Shape: Square
- Rustproof: Yes
- Corrosion Resistance: High
- Size: Customizable
- Lightweight: Yes
- Highlight: zinc magnesium anodized aluminum rectangular tube
,
anodized aluminum rectangular tube corrosion resistant
, strength anodized aluminum square tube

Product Description

Product Description:

The combination of these three metals provides a unique set of characteristics that make it an ideal choice for a wide range of applications. One of the primary benefits of Zinc Magnesium Aluminum Square Tubing is its excellent corrosion resistance. The alloy coated square tube is designed to withstand harsh environmental conditions, making it an excellent choice for outdoor applications. In addition to its corrosion resistance, Zinc Magnesium Aluminum Square Tubing is also highly malleable, making it easy to shape and form into the desired shape. This is an essential feature for construction, where precise measurements and shapes are necessary. Zinc aluminum magnesium strip steel is also known for its good weldability. Welding Zinc Magnesium Aluminum Square Tubing is relatively easy, making it an excellent choice for fabrication. It can be welded using common techniques, such as MIG and TIG welding. Overall, Zinc Magnesium Aluminum Square Tubing is an excellent choice for a wide range of applications. Its unique combination of zinc, magnesium, and aluminum make it highly resistant to corrosion, highly malleable, and easy to weld. Whether you're working on a construction project, automotive application, aerospace project, or marine application, Zinc Magnesium Aluminum Square Tubing is an excellent choice.

Features:

This Zinc Magnesium Alloy Square Pipe, also known as Zinc Magnesium Aluminum Square Tubing, is highly resistant to rust and its size can be customized. Its surface treatment is Zinc Magnesium Aluminum and it is made of Zinc, Magnesium, and Aluminum, which makes it highly durable. Additionally, the Zinc Magnesium Alloy Square Pipe has good weldability, making it easy to work with.

Technical Parameters:

Strength	High
Corrosion Resistance	High
Shape	Square
Material	Zinc, Magnesium, Aluminum
Application	Construction, Automotive, Aerospace, Marine, Etc.
Size	Customizable
Lightweight	Yes
Weldability	Good
Color	Silver
Malleability	High

Applications:

The Mg Zn Al Square Pipe is highly malleable, making it an ideal choice for manufacturers seeking a versatile product that can be customized to suit their needs. Its high strength makes it a popular choice for use in construction, particularly in the creation of frames and supports. The Zinc Magnesium Alloy Square Pipe is also highly durable, ensuring that it can withstand the test of time even in harsh environments.

With a negotiable minimum order quantity and price, the Zinc Magnesium Aluminum Square Tube can be easily obtained by both small and large businesses. Its packaging details can also be customized to suit the specific needs of the customer, ensuring that it arrives at its destination in optimal condition. Delivery time typically takes between 15-30 work days, depending on the size and quantity of the order. Payment terms are also flexible, with TT being a commonly accepted form of payment.

Packing and Shipping:

Product Packaging:

Each Zinc Magnesium Aluminum Square Tube is individually wrapped in plastic to prevent scratching and damage during shipping.

All tubes are then bundled together and wrapped in bubble wrap for additional protection.

The bundle is then placed in a sturdy cardboard box with packing peanuts to prevent movement during shipping.

Shipping:

All orders are shipped via a reputable courier service.
Shipping times may vary depending on the destination, but are typically between 3-7 business days.
Customers will receive a tracking number once their order has been shipped.
If any damage is noticed upon delivery, please contact our customer service team immediately.

FAQ:

Q: What is the material of the Zinc Magnesium Aluminum Square Tube?
A: The material of the Zinc Magnesium Aluminum Square Tube is Zinc, Magnesium, and Aluminum.
Q: Where is the Zinc Magnesium Aluminum Square Tube made?
A: The Zinc Magnesium Aluminum Square Tube is made in Hebei, China.
Q: Does the Zinc Magnesium Aluminum Square Tube have any certification?
A: Yes, the Zinc Magnesium Aluminum Square Tube is certified with ISO9001.
Q: What is the minimum order quantity for the Zinc Magnesium Aluminum Square Tube?
A: The minimum order quantity for the Zinc Magnesium Aluminum Square Tube is negotiable.
Q: What are the payment terms for the Zinc Magnesium Aluminum Square Tube?
A: The payment terms for the Zinc Magnesium Aluminum Square Tube is TT.
