

Rustproof Malleable Heat Conductivity Silver Zinc Magnesium Alloy Aluminum Square Tube Mg Zn Al Square Pipe

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Corrosion Resistance: High
- Weldability: Good
- Malleability: High
- Heat Conductivity: High
- Material: Zinc, Magnesium, Aluminum
- Size: Customizable
- Color: Silver
- Rustproof: Yes
- Highlight: rustproof alloy square tube,
rustproof aluminum square tube,
malleable alloy square tube

Product Description

Product Description:

One of the key features of this Zinc Magnesium Aluminum Square Tubing is its rustproof properties. Unlike other materials that are prone to corrosion and rust over time, this square tube is designed to withstand harsh conditions, making it an excellent choice for outdoor applications or in environments that require high resistance to corrosion.

With its square shape, this tube is ideal for a wide range of applications, including the construction of frames, supports, and other structures. The tube's good weldability and high malleability make it easy to work with and shape to meet specific project requirements. Whether you are constructing a building or working on an automotive project, this Zinc Magnesium Aluminum Square Tube is an excellent choice.

Overall, the Zinc Magnesium Aluminum Square Tube is a highly versatile and reliable material that is suitable for use in a variety of industries and applications. Its rustproof properties, combined with its good weldability and high malleability, make it an excellent choice for those who require durable and long-lasting materials for their projects. So, if you're looking for a reliable and versatile square tube for your construction, automotive, aerospace, marine, or other applications, the Zinc Magnesium Aluminum Square Tube is the perfect choice.

Technical Parameters:

Malleability	High
Material	Zinc, Magnesium, Aluminum
Strength	High
Shape	Square
Surface Treatment	Zinc Magnesium Aluminum
Corrosion Resistance	High
Lightweight	Yes
Rustproof	Yes
Size	Customizable
Color	Silver

Applications:

The Zinc Magnesium Alloy Square Pipe is lightweight and has a high malleability, making it easily malleable and perfect for construction, automotive, aerospace, and marine applications. The Aluminum-Magnesium-Zinc Square Hollow Section is treated with Zinc Magnesium Aluminum on the surface, making it resistant to corrosion and rust. This makes it suitable for outdoor and marine applications where it is exposed to moisture and sea salt.

The Zinc Magnesium Aluminum Square Tube is widely used in construction for building frames, supports, and trusses. It is also used in automotive and aerospace industries for manufacturing vehicle frames and aircraft parts. The high strength and durability of the Zinc Magnesium Aluminum Square Tube make it perfect for industrial applications where heavy loads are carried.

In conclusion, the Zinc Magnesium Aluminum Square Tube is a versatile and durable product that has a wide range of applications. Its lightweight and malleable properties make it easy to work with, and its surface treatment makes it resistant to corrosion and rust. Its applications range from construction and automotive to aerospace and marine, and it is also used in the manufacturing of furniture and decorative items.

Packing and Shipping:

Product Packaging:

Each square tube is individually wrapped in plastic to prevent scratches and damage during shipping.

All tubes are then packed into a sturdy cardboard box with protective foam inserts to ensure they arrive in good condition.

Shipping:

Shipping is done via courier service to ensure timely and safe delivery.

Shipping times may vary depending on the destination, but we aim to have your order delivered as quickly as possible. Please provide accurate shipping information to avoid any delays or issues with delivery.

FAQ:

Q: Where is the Zinc Magnesium Aluminum Square Tube produced?

A: The Zinc Magnesium Aluminum Square Tube is produced in Hebei, China.

Q: Is the Zinc Magnesium Aluminum Square Tube certified?

A: Yes, it is certified with ISO9001.

Q: What is the minimum order quantity for the Zinc Magnesium Aluminum Square Tube?

A: The minimum order quantity for the Zinc Magnesium Aluminum Square Tube is negotiable.

Q: What is the price of the Zinc Magnesium Aluminum Square Tube?

A: The price of the Zinc Magnesium Aluminum Square Tube is negotiable.

Q: How is the Zinc Magnesium Aluminum Square Tube packaged and delivered?

A: The Zinc Magnesium Aluminum Square Tube is packaged according to customer needs and delivered within 15-30 work days. Payment terms are TT.
