

## Malleability Aluminum Magnesium Zinc Square Hollow Sections With Great Durability

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

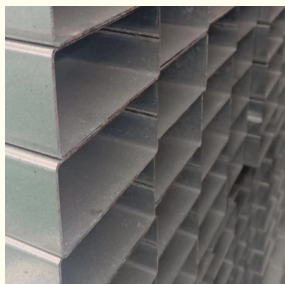

#### Product Specification

- Malleability: High
- Heat Conductivity: High
- Color: Silver
- Size: Customizable
- Rustproof: Yes
- Material: Zinc, Magnesium, Aluminum
- Weldability: Good
- Surface Treatment: Zinc Magnesium Aluminum
- Highlight: **malleability aluminum square tube, malleability square hollow sections, hollow aluminum square tube**

## Product Description

### Product Description:

The alloy coating of this square tube ensures that it is highly durable and able to withstand harsh environmental conditions. Whether it is exposed to extreme temperatures or corrosive substances, this tube will remain strong and reliable for years to come.

In addition to its durability, the Mg Zn Al Square Pipe is also highly malleable. This means that it can be easily shaped and formed to fit a wide range of needs and applications. Whether you need a square tube that is bent, curved, or twisted, this product can be easily manipulated to meet your requirements.

With its sleek silver color, this alloy coated square tube is not only functional but also aesthetically pleasing. Whether you are using it as a structural element in a building or as part of a decorative feature, this tube will look great and perform flawlessly.

In summary, if you are looking for a versatile, durable, and malleable square tube for your next project, the Mg Zn Al Square Pipe is an excellent choice. With its alloy coating, lightweight construction, and sleek silver color, this product is sure to meet all of your needs and exceed your expectations.

### Technical Parameters:

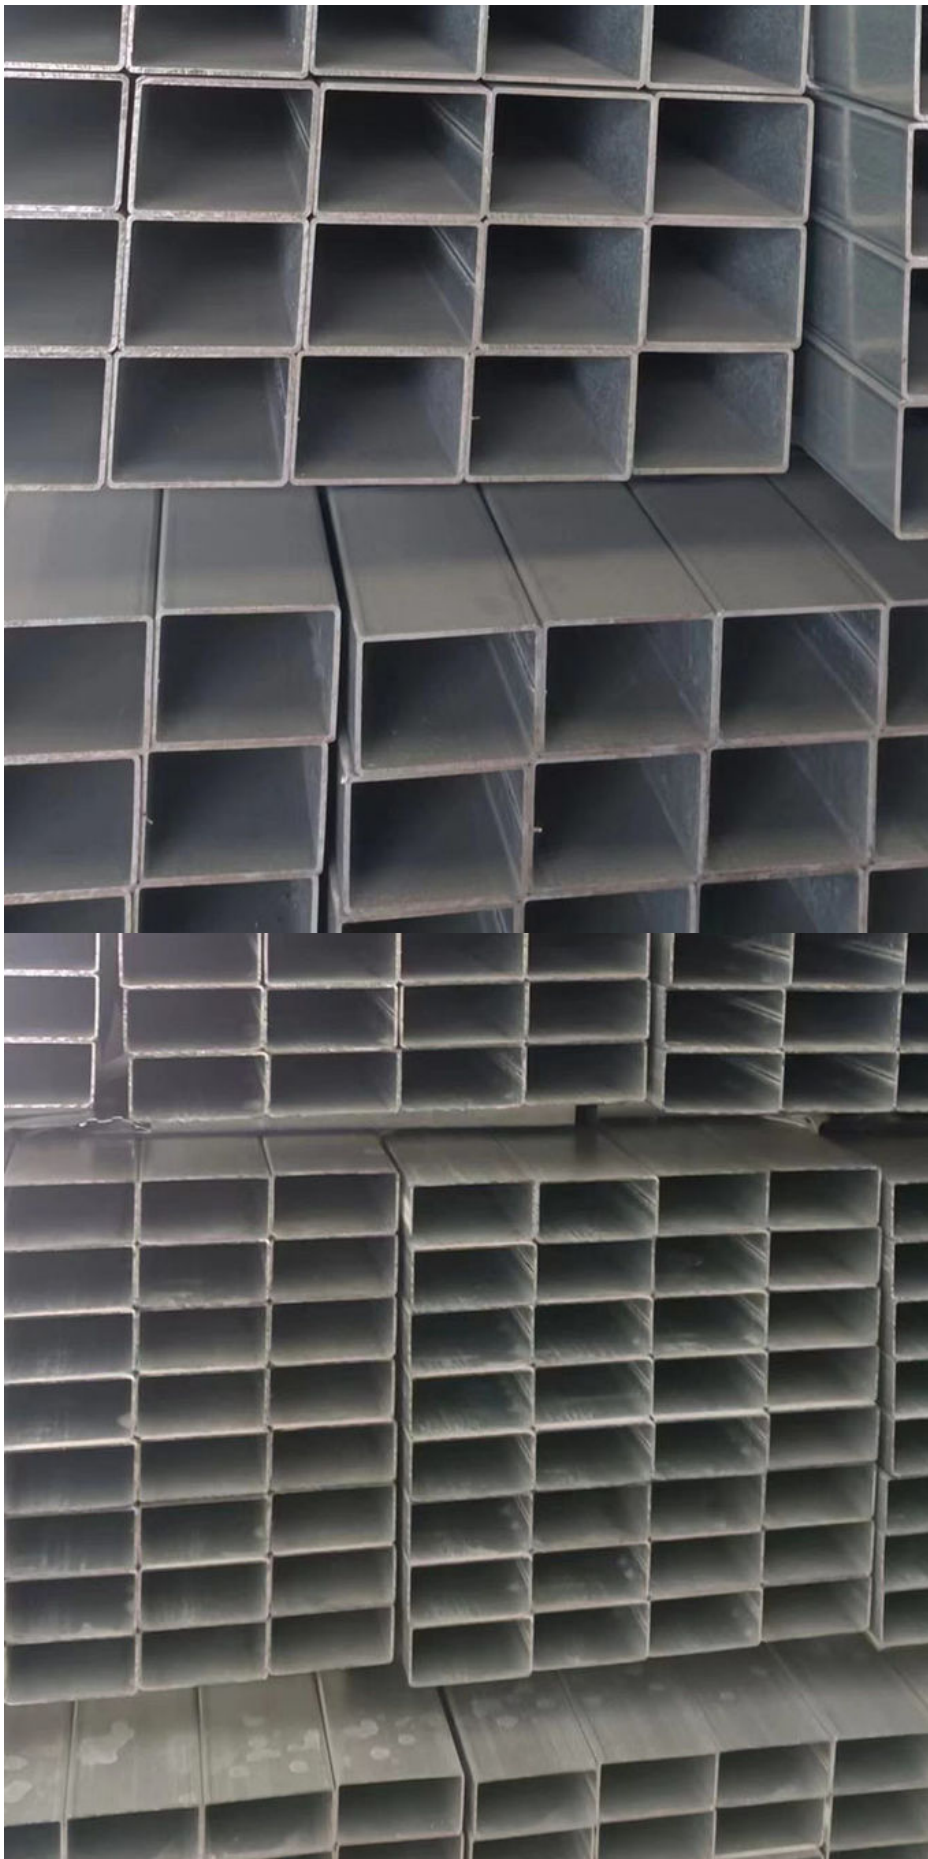

Durable	Yes
Corrosion Resistance	High
Malleability	High
Shape	Square
Application	Construction, Automotive, Aerospace, Marine, Etc.
Color	Silver
Material	Zinc Magnesium Aluminum Alloy
Heat Conductivity	High
Lightweight	Yes
Strength	High

### Applications:

Our Mg Zn Al Square Pipe is a versatile product that can be used in various industries. It can be used in construction and architecture projects, such as building frames, support structures, and handrails. It can also be used in automobile and transportation industries, such as in the manufacturing of bike frames and other lightweight vehicles.

Our product has a minimum order quantity that is negotiable, and our prices are also negotiable. We understand that different customers have different needs, and we are committed to providing a product that meets those needs. Our packaging details are also customizable according to customer needs.

The delivery time for our product is 15-30 work days, and we accept TT as our payment terms. Whether you need our Mg Zn Al Square Pipe for a large-scale construction project or a small-scale manufacturing project, we are confident that our product will meet your needs. Contact us today to learn more about our product and to place an order.

### **Packing and Shipping:**

#### **Product Packaging:**

The Zinc Magnesium Aluminum Square Tube product will be packaged securely in a cardboard box to prevent any damage during shipping. The box will be labeled with the product name and specifications for easy identification.
