

OEM Service Building Steel Scaffold Props Support For Construction

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Features: High Strength, Easy To Install, Corrosion Resistant
- Package: Steel Pallet Or As Per Customer's Request
- Adjustable Height: 0.5-1.8 Meters
- Surface Smoothness: Hot Dip Galvanizing
- Application: Construction INdustry
- Design Style: Industrial
- Usage: Supporting Scaffolding System
- Load Capacity: 1.5-3 Tons
- Product Material: Q235 Q345 Q355
- Highlight: **oem scaffold props, oem scaffold support, building scaffold props**

Product Description

Product Description:

The surface of the Scaffold Steel Support is Hot Dip Galvanized, ensuring a smooth and durable finish. This feature makes it resistant to rust, corrosion, and other forms of wear and tear. It is built to withstand harsh weather conditions, making it ideal for outdoor use. The Scaffold Steel Support is packaged in a Steel Pallet Or As Per Customer's Request. The packaging ensures that the product is protected during transportation to the construction site. The packaging also makes it easier to store and move around the site. The Scaffold Steel Support is specifically designed for the Construction Industry. It is used to provide support for workers and materials during construction. It is a vital component of scaffolding systems used in construction projects. The Scaffold Steel Support can be used in a variety of applications, including building construction, bridge construction, and other large-scale projects. In summary, the Scaffold Steel Support is an essential product for the construction industry. Its Industrial Design Style, Hot Dip Galvanized surface, Steel Pallet packaging, and availability for OEM service make it an ideal choice for any construction project. This Construction Steel Bracket is a reliable and durable Prop Scaffolding that can withstand even the toughest conditions.

Technical Parameters:

Product Attribute	Value
Product Name	Building Steel Prop/Scaffolding Steel Post/Construction Steel Bracket
Features	High Strength, Easy To Install, Corrosion Resistant
Application	Construction Industry
Surface Smoothness	Hot Dip Galvanizing
Load Capacity	1.5-3 Tons
Design Style	Industrial
Diameter	Customization
Usage	Supporting Scaffolding System
Adjustable Height	0.5-1.8 Meters
Package	Steel Pallet Or As Per Customer's Request
OEM Service	Available

Applications:

Our Scaffold Steel Support product is galvanized, providing a surface treatment that is both durable and long-lasting. It has a load capacity of 1.5-3 tons, making it perfect for supporting scaffolding systems in the construction industry. Our product is available in steel pallet or as per customer's request.

The Scaffold Steel Support product is perfect for a variety of application occasions and scenarios in the construction industry. It can be used as a construction steel bracket to support the weight of scaffolding and provide stability to the overall structure. Our product can also be used as a building steel prop to support the weight of walls and other building elements during construction.

Our Scaffold Steel Support product is a versatile and reliable choice for any construction project. Contact us today to learn more about how our product can support your construction needs.

Packing and Shipping:

Product Packaging: Each scaffold steel support will be securely packaged in a cardboard box with appropriate padding to prevent damage during transit. **Shipping:** We offer shipping options through various carriers including UPS, FedEx and DHL. Standard shipping times are 3-5 business days. However, expedited shipping options are available upon request. Please note that shipping fees will vary depending on the weight and destination of the package.

FAQ:

Q: Where is the Scaffold Steel Support made?

A: The Scaffold Steel Support is made in Hebei, China.

Q: Is the Scaffold Steel Support certified?

A: Yes, the Scaffold Steel Support is certified with ISO9001.

Q: What is the minimum order quantity for the Scaffold Steel Support?

A: The minimum order quantity for the Scaffold Steel Support is negotiable.

Q: What is the price of the Scaffold Steel Support?

A: The price of the Scaffold Steel Support is negotiable.

Q: How is the Scaffold Steel Support packaged and delivered?

A: The Scaffold Steel Support is packaged according to customer needs and delivered within 15-30 work days after payment. Payment terms are TT.
