

Full Height Adjustable Galvanized Steel Scaffold Support Q235 Q345 Q355 For Added Stability

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Oem Service: Available
- Application: Construction INdustry
- Adjustable Height: 0.5-1.8Meters
- Product Material: Q235 Q345 Q355
- Surface Smoothness: Hot Dip Galvanizing
- Design Style: Industrial
- Usage: Supporting Scaffolding System
- Surface Treatment: Galvanized
- Load Capacity: 1.5-3 Tons
- Highlight: **scaffold support q235, adjustable scaffold props, adjustable scaffold support**

Product Description

Product Description:

With its customizable length, this Scaffold Steel Support can be adjusted to fit a variety of construction needs. This feature makes it a versatile tool that can be used on various job sites. The adjustable height of this product is also a valuable attribute, offering a range of 0.5-1.8 meters, which can be set to suit different building needs.

The Construction Steel Bracket is designed for use in the construction industry. It is a reliable tool that can help workers perform tasks at height with ease. This product is an essential component of any scaffolding system, as it provides a sturdy and dependable support system.

The Scaffold Steel Support is a valuable asset to any construction site. Its customizable length and adjustable height make it a versatile tool that can be used on various job sites. The load capacity of 1.5-3 tons ensures that it is a reliable tool for supporting scaffolding systems during construction tasks.

If you are looking for a durable and reliable Scaffold Steel Support, this Construction Steel Bracket is the right choice for you. It is designed to provide a sturdy and dependable support system for workers while they perform tasks at height.

Features:

High Strength

Easy To Install

Corrosion Resistant

OEM Service: Available

Application: Construction Industry

Also known as: Building Steel Prop, Building Steel Post, Scaffolding Steel Post

Technical Parameters:

Product Attribute	Value
Product Name	Construction Steel Bracket
Usage	Scaffold Steel Support
Design Style	Industrial
Adjustable Height	0.5-1.8 Meters
Diameter	Customization
Application	Construction Industry
Load Capacity	1.5-3 Tons
Features	High Strength, Easy To Install, Corrosion Resistant
OEM Service	Available
Length	Customization

Applications:

This product is easy to install, making it a popular choice for both professional contractors and DIY enthusiasts. Its high strength and corrosion-resistant properties ensure that it can withstand even the harshest environments and weather conditions.

Overall, our Scaffold Steel Support is a versatile and reliable product that is perfect for a variety of building and construction projects.

Whether you are building a new structure or performing maintenance on an existing one, our Scaffold Steel Support is sure to provide the support you need.
