

Corrosion Resistant Industrial Design Adjustable Steel Shoring Posts For Custom Length Scaffolding

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Features: High Strength, Easy To Install, Corrosion Resistant
- Application: Construction INdustry
- Adjustable Height: 0.5-1.8 Meters
- Surface Treatment: Galvanized
- Package: Steel Pallet Or As Per Customer's Request
- Usage: Supporting Scaffolding System
- Design Style: Industrial
- Oem Service: Available
- Highlight: industrial adjustable steel shoring posts, industrial heavy duty adjustable shoring posts, corrosion resistant adjustable steel shoring posts

Product Description

Product Description:

The Scaffold Steel Support is available in various diameters and lengths, which can be customized to meet the specific requirements of different construction projects. The customization feature ensures that the product can be adjusted to fit the specific needs of the construction site, providing a secure and stable foundation for the project.

The Scaffold Steel Support is also corrosion resistant, which ensures that it can withstand the harsh conditions of the construction site. This makes it a durable and long-lasting supporting system that can be used for multiple construction projects over an extended period of time.

Overall, the Scaffold Steel Support is an essential product for the construction industry. Its high strength, easy installation, and corrosion resistance make it an ideal choice for supporting beams, concrete slabs, and other heavy materials. Whether you are a contractor or construction worker, the Scaffold Steel Support, also known as Prop Scaffolding, is a must-have product for any construction site.

Features:

High Strength

Easy To Install

Corrosion Resistant

Surface Treatment: Galvanized

Surface smoothness: Hot Dip Galvanizing

Package: Steel Pallet Or As Per Customer's Request

Technical Parameters:

Product Name	Construction Steel Bracket
Application	Construction Industry
Package	Steel Pallet Or As Per Customer's Request
OEM Service	Available
Load Capacity	1.5-3 Tons
Length	Customization
Usage	Supporting Scaffolding System
Adjustable Height	0.5-1.8 Meters
Features	High Strength, Easy To Install, Corrosion Resistant
Design Style	Industrial
Surface Treatment	Galvanized
Product Name	Scaffold Steel Support, Scaffolding Steel Post

Applications:

One of the most important features of this product is its adjustable height, which ranges from 0.5 to 1.8 meters. This makes it ideal for use in construction projects where the height of the support needs to be easily changed. The product is also made with hot dip galvanizing surface smoothness, making it durable and resistant to rust and corrosion.

The load capacity of the scaffold steel support ranges from 1.5 to 3 tons, making it suitable for a wide range of construction projects. Its galvanized surface treatment also makes it ideal for use in outdoor environments, where it can withstand harsh weather conditions.

Our scaffold steel support is perfect for use in a variety of construction projects, including building construction, bridge construction, and other infrastructure projects. It is easy to install and can be used to support beams, concrete slabs, and other heavy materials.

Packing and Shipping:

Product Name: Scaffold Steel Support **Product Description:** The Scaffold Steel Support is a heavy-duty steel support designed to provide stability and safety for scaffolding systems. It features a durable steel construction that can support heavy loads and withstand harsh weather conditions. The support is easy to install and adjust to different heights, making it ideal for various construction and renovation projects. **Packaging:** The Scaffold Steel Support comes in a sturdy cardboard box that is designed to protect the product during shipping. The box is labeled with the product name, description, and handling instructions to ensure safe and efficient handling. **Shipping:** The Scaffold Steel Support is shipped via a reliable carrier service that provides fast and secure delivery. The shipping cost is calculated based on the destination and weight of the product. Customers will receive a tracking number to monitor the delivery status of their order.

FAQ:

What is the Place of Origin of Scaffold Steel Support?
The Place of Origin of Scaffold Steel Support is Hebei, China.
Is Scaffold Steel Support certified?
Yes, Scaffold Steel Support is certified with ISO9001.
What is the Minimum Order Quantity for Scaffold Steel Support?
The Minimum Order Quantity for Scaffold Steel Support is negotiable.
Can the price of Scaffold Steel Support be negotiated?
Yes, the price of Scaffold Steel Support can be negotiated.
What are the Payment Terms for purchasing Scaffold Steel Support?
The Payment Terms for purchasing Scaffold Steel Support are TT.
How is Scaffold Steel Support packaged?
Scaffold Steel Support is packaged according to customer needs.
What is the Delivery Time for Scaffold Steel Support?
The Delivery Time for Scaffold Steel Support is 15-30 work days.
