## Product Description

### Product Description:

One of the standout features of the Wall Formwork Tie is its easy installation process. The product is designed to be quickly and easily installed by hand, reducing the amount of time and labor required for construction projects. Additionally, the Wall Formwork Tie is reusable, making it a cost-effective solution for construction companies looking to save money on hardware costs.

The Wall Formwork Tie has a safe working load of at least 10kN, providing the necessary support and stability for concrete walls of varying heights and widths. This product is suitable for use in a variety of construction applications, including commercial, industrial, and residential projects.

As an OEM service provider, we offer customized solutions that meet the specific needs and requirements of our customers. The Wall Formwork Tie is available in a variety of sizes and specifications, ensuring that it can be used in a wide range of construction applications.

To ensure the safe and secure transportation of the Wall Formwork Tie, we package our product in carton boxes or as per the customer's requirement. This ensures that the product arrives at its destination in excellent condition, ready to be used on the construction site.

In addition to our Wall Formwork Tie product, we also offer other hardware components, including Hardware Flat Tie and Aluminum Wall Tie. These products are designed to work seamlessly together to provide a complete solution for concrete wall construction projects.

### Technical Parameters:

Product Name	Wall Formwork Tie
Hardware Flat Tie Type	Wall Formwork Ligation Member
OEM Service	Available
Length	Standard
Usage	Wall Bracket
Surface Treatment	Galvanized
Application	Concrete Wall Construction
Material	Steel
Sample	Available For Free
Safe Working Load	≥10kN
Package	Carton Box Or As Per Customer's Requirement
Features	High Strength, Easy To Install, Reusable

### Applications:

We understand that some customers need to test our product before making a purchase, which is why we offer a sample of our Wall Formwork Tie for free. Our product comes in a Carton Box or as per customer's requirement, and it has a Standard Length. We also offer OEM Service to our customers, which means that we can customize the product according to their specifications.

The Wall Formwork Tie is suitable for various Application Occasions and Scenarios, including but not limited to:

- Construction of Residential Buildings
- Construction of Commercial Buildings
- Construction of Bridges
