### Applications:

Our Wall Formwork Tie is designed to be easy to install and reusable, making it a cost-effective solution for your construction needs. It is a type of concrete formwork accessory that is used to secure the formwork to the concrete wall while it sets. With our Wall Formwork Tie, you can be confident that your concrete wall will be sturdy and strong.

Our Wall Formwork Tie is available in standard length, and the packaging details can be customized according to your specific needs. The minimum order quantity and pricing are negotiable, and we offer a delivery time of 15-30 work days. We accept TT as our payment terms.

Our Wall Formwork Tie is also known as an Aluminum Wall Tie or Aluminum Wall Bracket. It is suitable for a variety of application occasions and scenarios. Whether you are constructing a high-rise building, a bridge, or a tunnel, our Wall Formwork Tie can be used to ensure the stability and strength of your concrete wall. It is perfect for both residential and commercial construction projects.

Don't hesitate to contact us for more information about our Wall Formwork Tie. We are here to help you find the right solution for your construction needs.

### **Packing and Shipping:**

#### **Product Packaging:**

- Each wall formwork tie is individually wrapped in plastic to protect it from damage during shipment.
- The ties are then packed in a sturdy cardboard box to keep them secure and organized.

#### **Shipping:**

- The wall formwork ties will be shipped via standard ground shipping unless expedited shipping is requested.
- Shipping costs will be calculated at checkout based on the shipping address and selected shipping method.

-Orders will be processed and shipped within 1-2 business days of payment confirmation.

---
