

Customized Aluminum Embedded Parts for Lightweight and Corrosion Resistance

Our Product Introduction

for more products please visit us on galvmetal.com

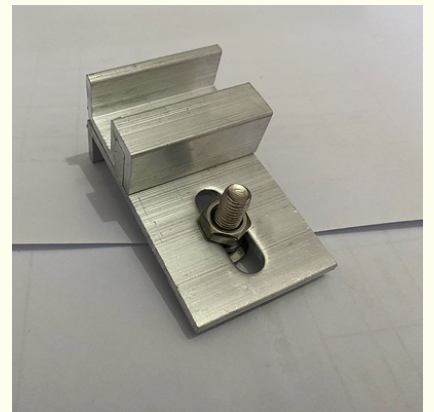

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

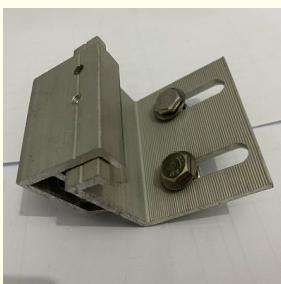

Product Specification

- Weight: Lightweight
- Installation: Easy
- Size: Customized
- Corrosion Resistance: Strong
- Shape: Customized
- Color: Silver
- Material: Aluminum
- Function: Embedded
- Highlight: customized aluminum embedded parts, customized aluminum embedded components, lightweight aluminum embedded parts

Product Description

Product Description:

These building embedded parts are made of high-quality aluminum, providing a lightweight and easy-to-handle option for your project. The silver color of the parts not only looks sleek and modern but also adds an extra layer of protection against rust and corrosion, perfect for outdoor and long-term use.

Our Aluminum Embedded Parts are perfect for use in various building construction applications, including walls, floors, and ceilings. The parts are designed to be embedded within the construction material, providing strength and stability to the structure.

Our embedded parts are available in various sizes and shapes, making it easy to find the perfect fit for your project. Whether you're building a small structure or a large complex, our Aluminum Embedded Parts are a perfect choice.

So, if you're looking for high-quality galvanized embedded parts for your building construction project, look no further than our Aluminum Embedded Parts. With their high durability, lightweight design, and sleek silver color, they are the perfect choice for any construction project.

Features:

Our Aluminum Embedded Parts are the perfect solution for building embedded parts. Made of lightweight aluminum, these parts are easy to install and have a galvanized finish to ensure their durability. They are designed to be embedded into building structures, providing a strong and sturdy foundation. Whether you're working on a new construction project or renovating an existing building, our Aluminum Embedded Parts are the way to go.

Technical Parameters:

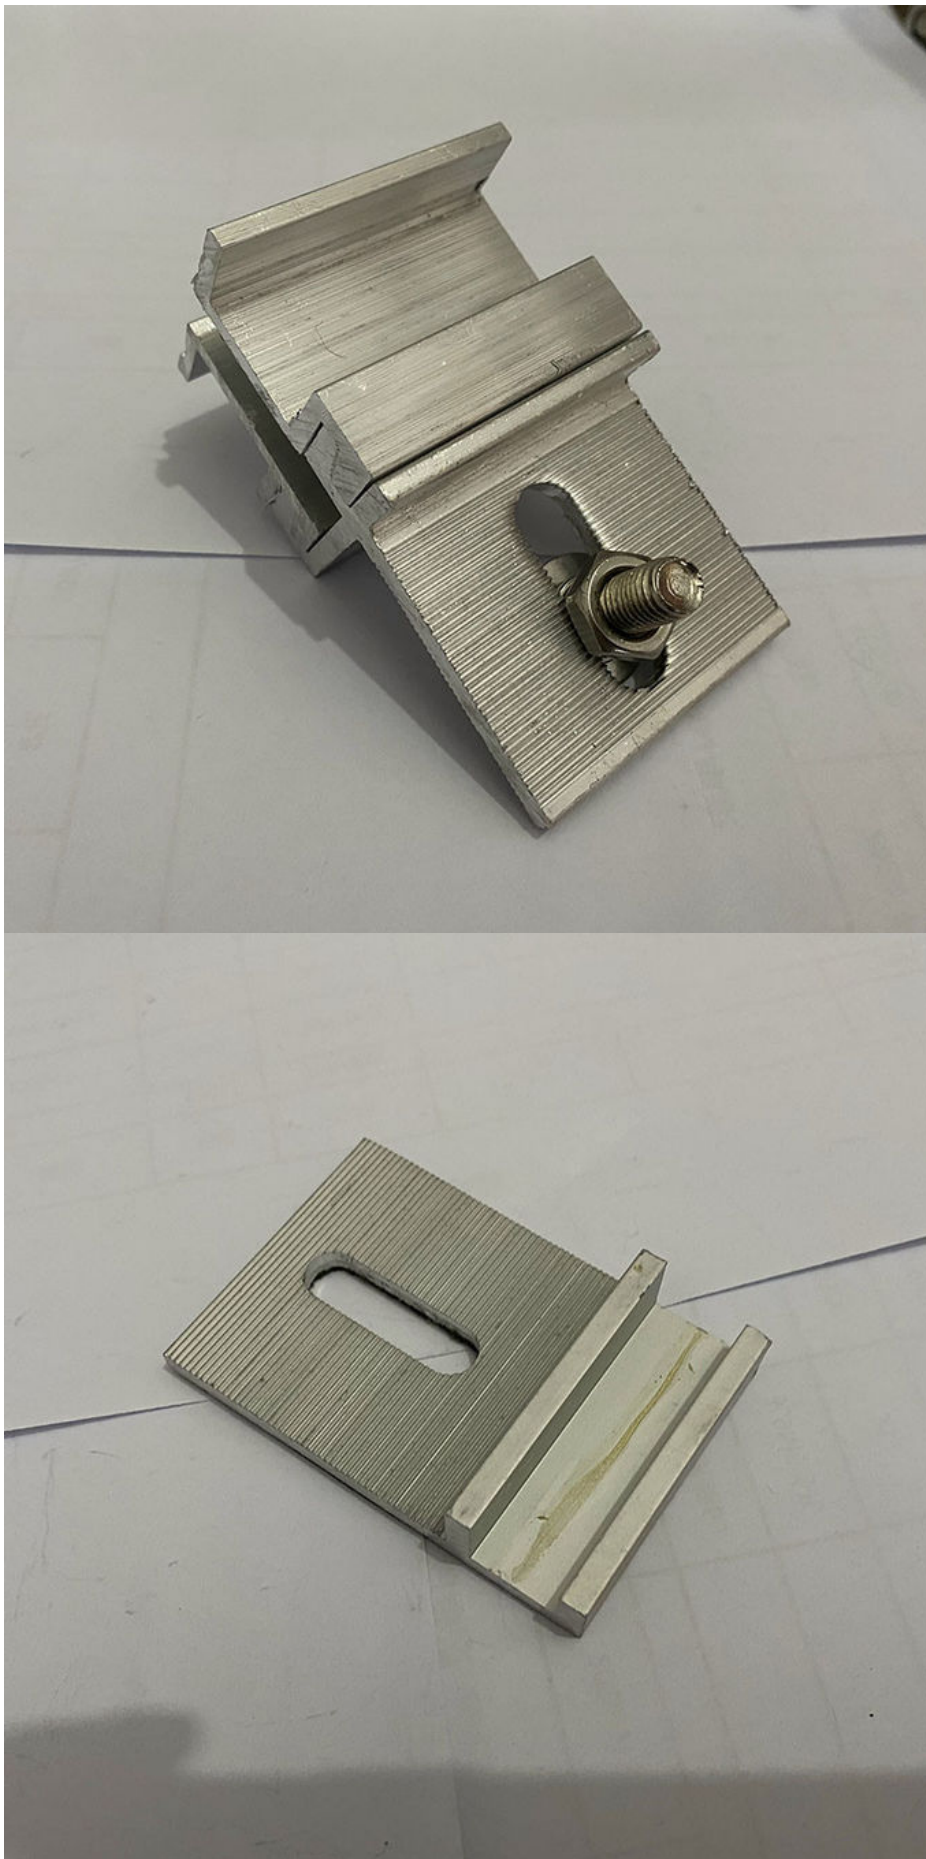

Surface Treatment	Anodizing
Durability	High
Heat Resistance	Good
Shape	Customized
Application	Building Construction
Weight	Lightweight
Material	Aluminum
Installation	Easy
Size	Customized
Customization	Available

Applications:

The Aluminum Embedded Parts can be customized in shape and size to suit specific project requirements. They are available in silver color and are designed to enhance the overall aesthetics of building structures. Our products are suitable for use in a variety of building structures and can be used in conjunction with other building embedded parts.

The Aluminum Embedded Parts are easy to install and can be used in a variety of scenarios, making them ideal for use in commercial and residential buildings. They are designed to enhance the overall appearance of the building structure and are suitable for use in a variety of building applications. Our products are made from high-quality aluminum material, ensuring that they are lightweight and easy to handle.

Overall, our Aluminum Embedded Parts are a great choice for anyone looking for durable, high-quality building embedded parts. They are ideal for use in Galvanized Embedded Parts and Embedded Fixtures and can be customized to suit specific project requirements. With our excellent delivery time, payment terms, and packaging options, you can rest assured that your product will be delivered on time and in good condition.

Packing and Shipping:

Product Packaging:

The aluminum embedded parts will be packaged in a sturdy cardboard box to prevent any damage during transportation.

The parts will be securely wrapped in bubble wrap and placed inside the box to ensure they do not move around during shipping.

A label indicating the contents and any handling instructions will be affixed to the outside of the box.

Shipping:

We offer both domestic and international shipping options.
All orders will be shipped within 2 business days of receipt of payment.
We use trusted shipping carriers to ensure timely and safe delivery of your order.
A tracking number will be provided to you once your order has shipped.
Please note that any customs or duty fees associated with international shipping are the responsibility of the customer.
