

Customized Galvanized Embedded Parts / Aluminum Embedded Parts with Anodizing Service

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

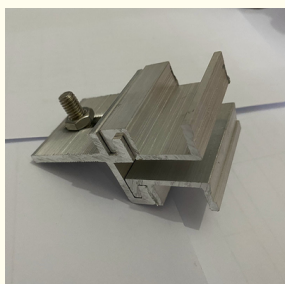

Product Specification

- Color: Silver
- Durability: High
- Installation: Easy
- Function: Embedded
- Surface Treatment: Anodizing
- Shape: Customized
- Material: Aluminum
- Application: Building Construction
- Highlight: **customized aluminum embedded parts, customized aluminum embedded components, anodizing aluminum embedded parts**

Product Description

Product Description:

Our Aluminum Embedded Parts are specifically designed to provide long-lasting support for building embedded parts. With high durability, they are ideal for use in construction projects where longevity is a primary concern. These parts are perfect for use in both residential and commercial buildings, as they can support heavy loads without adding unnecessary weight.

Our Aluminum Embedded Parts are available in a range of sizes, ensuring that you can find the perfect fit for your needs. We understand that every construction project is unique, which is why we offer customized sizes to ensure that our parts fit seamlessly into your designs. These parts are specifically designed to provide lightweight support, which is essential for building construction projects that require a high degree of precision. They are easy to install and can be incorporated seamlessly into your designs, ensuring that your projects are completed quickly and efficiently.

Technical Parameters:

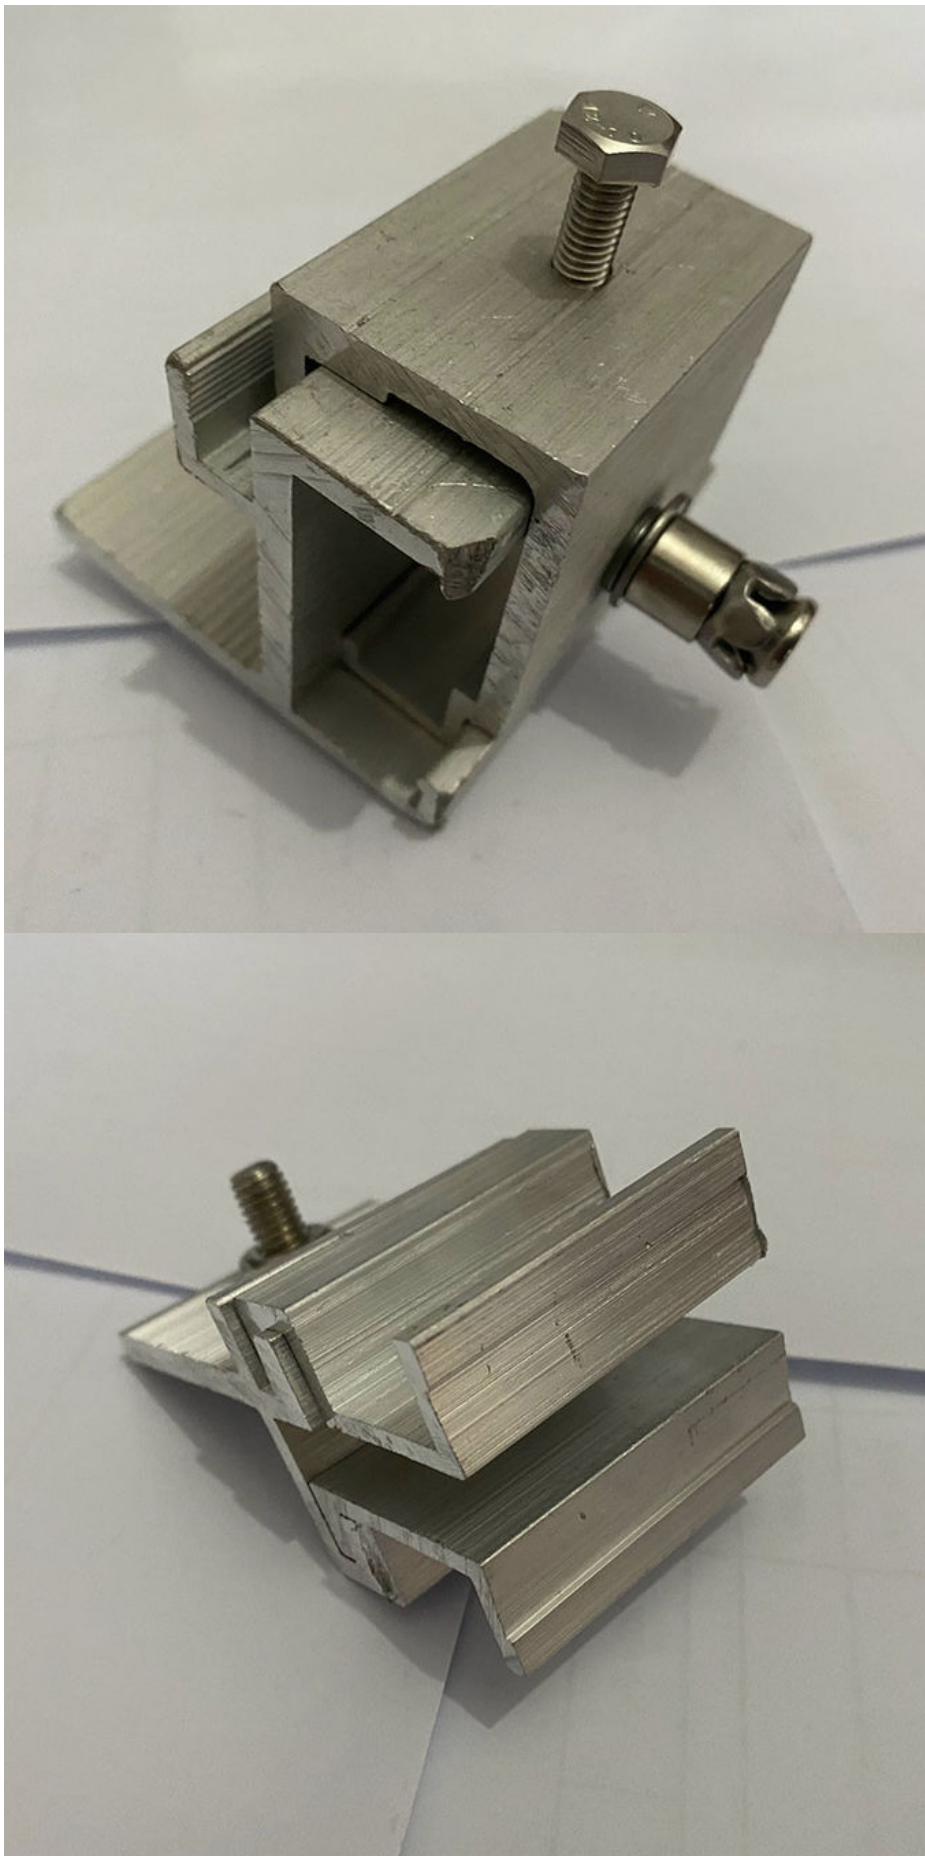

Durability	High
Installation	Easy
Function	Embedded
Surface Treatment	Anodizing
Weight	Lightweight
Application	Building Construction
Shape	Customized
Customization	Available
Material	Aluminum
Color	Silver

Applications:

Our Aluminum Embedded Parts have been certified with ISO9001, ensuring their quality and reliability. The minimum order quantity is negotiable, and the price can be discussed based on customer needs. The packaging details can also be customized according to customer requirements.

Our Aluminum Embedded Parts are highly customizable, making them ideal for projects with unique specifications. They are manufactured with a high level of precision and accuracy to ensure that they meet the exact needs of each customer.

Overall, Aluminum Embedded Parts are an excellent choice for those looking for highly durable and reliable building construction materials. With their excellent heat and corrosion resistance, they are sure to last for many years, even in harsh conditions. Contact us today to discuss your project requirements and see how our Aluminum Embedded Parts can help you achieve your building construction goals.

Packing and Shipping:

Product Packaging:

The Aluminum Embedded Parts are individually wrapped in bubble wrap and packed in a sturdy cardboard box with foam inserts to prevent any damage during transit.

Shipping:

The Aluminum Embedded Parts are shipped via standard ground shipping and can be tracked using the provided tracking number. Expedited shipping is available upon request for an additional fee.

FAQ:

Q: What is the place of origin of the Aluminum Embedded Parts?

A: The Aluminum Embedded Parts are made in Hebei, China.

Q: Is the product certified?

A: Yes, the product is certified with ISO9001.

Q: What is the minimum order quantity for Aluminum Embedded Parts?

A: The minimum order quantity for Aluminum Embedded Parts is negotiable.

Q: How much does the Aluminum Embedded Parts cost?

A: The price for Aluminum Embedded Parts is negotiable.

Q: What are the packaging details and delivery time for Aluminum Embedded Parts?

A: The packaging details for Aluminum Embedded Parts are according to customer needs and the delivery time is 15-30 work days.

Q: What are the payment terms for Aluminum Embedded Parts?

A: The payment terms for Aluminum Embedded Parts are TT.
