

Building Aluminum Embedded Parts Embedded Fixtures with Enhanced Corrosion Resistance

Our Product Introduction

for more products please visit us on galvmetal.com

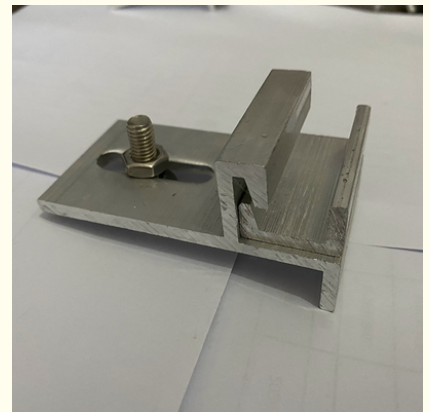

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Installation: Easy
- Surface Treatment: Anodizing
- Size: Customized
- Corrosion Resistance: Strong
- Customization: Available
- Durability: High
- Color: Silver
- Weight: Lightweight
- Highlight: corrosion resistance aluminum embedded parts
, corrosion resistance aluminum embedded components
, silver aluminum embedded parts

Product Description

Product Description:

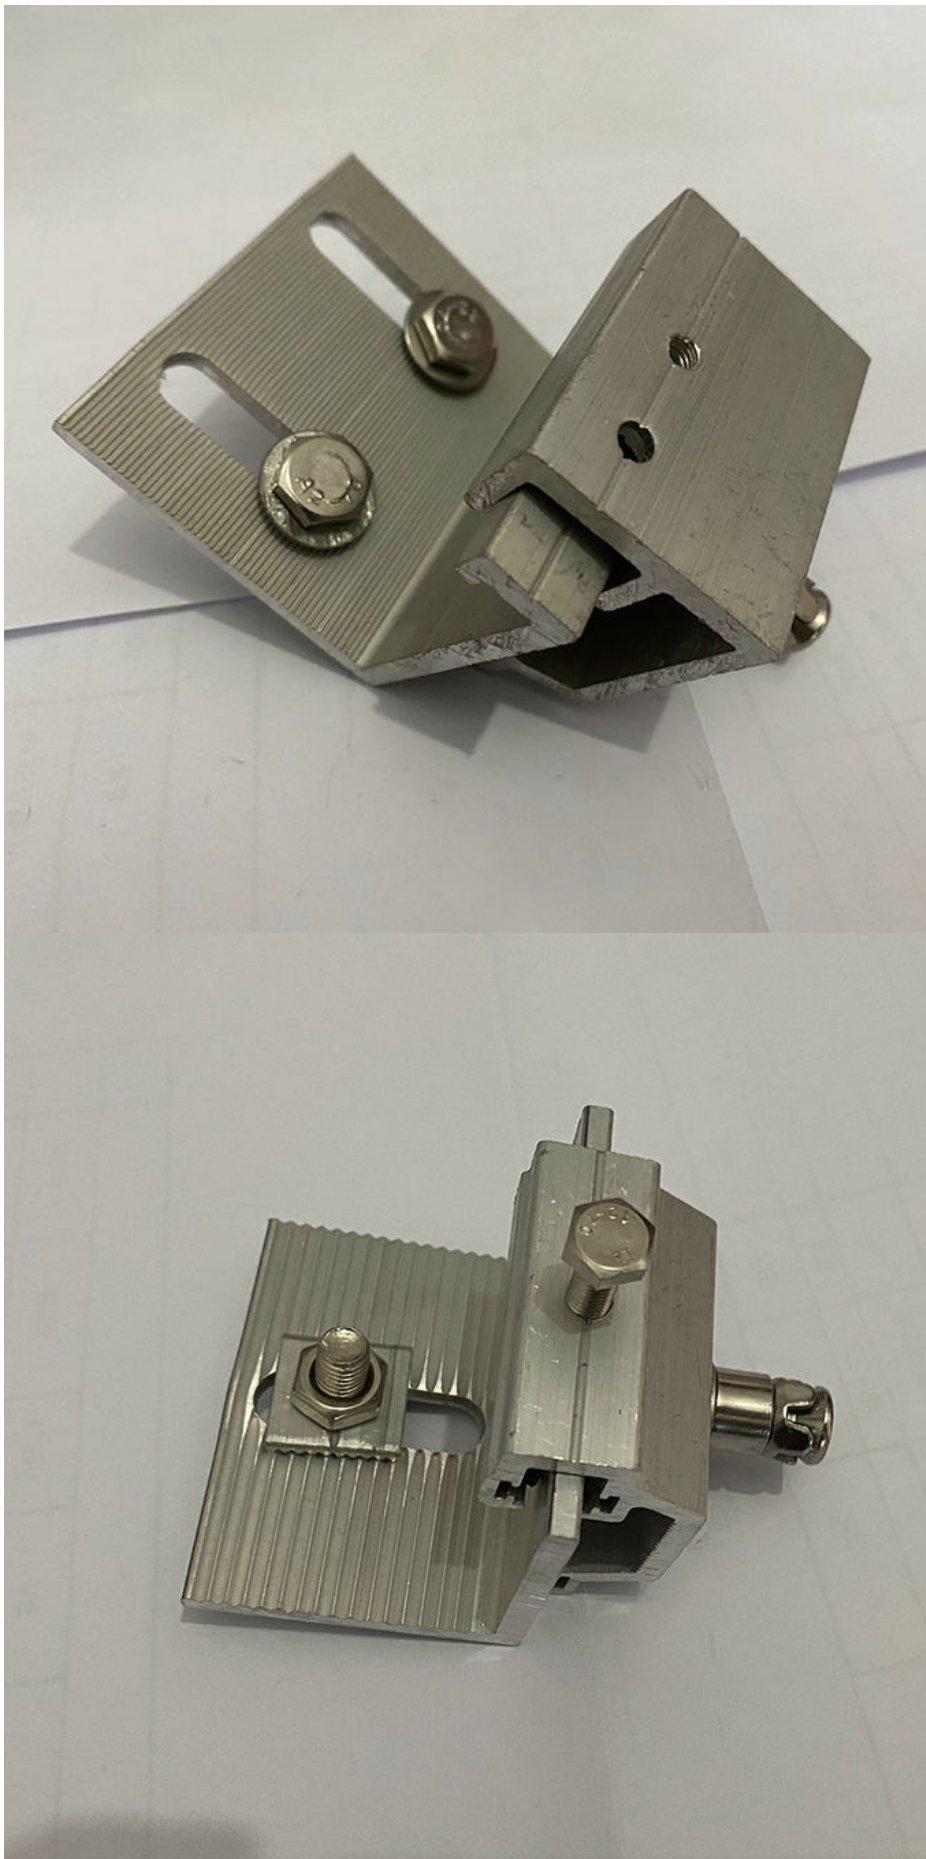

Our aluminum embedded parts are ideal for a wide range of applications, from commercial and industrial buildings to residential projects. Whether you need building embedded parts or galvanized embedded parts, we have the perfect solution for your needs. Our embedded fixtures are designed to be highly durable, ensuring that they will stand up to years of wear and tear without showing signs of wear. They are also fully customizable, allowing you to create a solution that meets your specific needs and requirements. When it comes to function, our aluminum embedded parts are second to none. They are specifically designed to be embedded into concrete or other building materials, providing a secure and stable foundation for your construction project. So why wait? If you're looking for strong, durable, and customizable embedded fixtures for your building construction needs, look no further than our aluminum embedded parts. Contact us today to learn more about our products and services!

Technical Parameters:

Product Name	Aluminum Embedded Parts
Size	Customized
Installation	Easy
Function	Embedded
Heat Resistance	Good
Color	Silver
Surface Treatment	Anodizing
Durability	High
Weight	Lightweight
Material	Aluminum
Corrosion Resistance	Strong

Applications:

The packaging details for Aluminum Embedded Parts can be customized according to the customer's needs, ensuring that they are delivered safely and securely. The delivery time for these parts is between 15-30 work days, and payment terms are TT. One of the key attributes of Aluminum Embedded Parts is their lightweight, making them easy to transport and install. They come in customized sizes, ensuring they fit perfectly into any construction project. These embedded fixtures are also durable, ensuring they last for years, and their surface treatment is anodizing, providing them with an extra layer of protection. Some of the application occasions and scenarios for Aluminum Embedded Parts include building embedded parts, embedded fixtures, and embedded fixtures for curtain walls, doors, and windows. They can also be used in the construction of bridges and tunnels, providing a strong and reliable foundation.

Packing and Shipping:

Each aluminum embedded part will be carefully packed in a bubble wrap to ensure that it is protected from scratches and other damage during transportation. The bubble-wrapped part will then be placed in a sturdy cardboard box with enough packing material to prevent any movement during shipping.

Shipping:

We offer two shipping options for our aluminum embedded parts. Standard shipping will take approximately 5-7 business days to arrive at its destination. For customers who need their parts more urgently, we also offer express shipping, which will arrive in 2-3 business days.

All shipments will be tracked and insured to ensure safe delivery.

FAQ:

Q: Where are the Aluminum Embedded Parts made?

A: The Aluminum Embedded Parts are made in Hebei, China.

Q: What certification do the Aluminum Embedded Parts have?

A: The Aluminum Embedded Parts are certified with ISO9001.

Q: What is the minimum order quantity for Aluminum Embedded Parts?

A: The minimum order quantity for Aluminum Embedded Parts is negotiable.

Q: What is the price for Aluminum Embedded Parts?

A: The price for Aluminum Embedded Parts is negotiable.

Q: How are the Aluminum Embedded Parts packaged and delivered?

A: The Aluminum Embedded Parts are packaged according to customer needs and delivered within 15-30 work days.

Q: What are the payment terms for Aluminum Embedded Parts?

A: The payment terms for Aluminum Embedded Parts are TT.
