

Lightweight Building Embedded Parts With Enhanced Heat Resistance

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Installation: Easy
- Heat Resistance: Good
- Size: Customized
- Customization: Available
- Weight: Lightweight
- Function: Embedded
- Shape: Customized
- Color: Silver
- Highlight: **lightweight building embedded parts,
lightweight aluminum embedded parts,
heat resistance aluminum embedded parts**

Product Description

Technical Parameters:

| | |
|----------------------|-----------------------|
| Corrosion Resistance | Strong |
| Weight | Lightweight |
| Customization | Available |
| Function | Embedded |
| Durability | High |
| Material | Aluminum |
| Color | Silver |
| Application | Building Construction |
| Installation | Easy |
| Shape | Customized |

Applications:

Building embedded parts are an important component of any construction project. They are used to secure fixtures and fittings to walls, floors, and ceilings, providing a strong and stable foundation for a range of applications. Aluminum Embedded Parts are an excellent choice for this purpose, as they offer exceptional strength and durability, as well as strong corrosion resistance.

Embedded Fixtures are a common application for Aluminum Embedded Parts. These fixtures are used to secure a wide range of items to walls and other surfaces, including cabinetry, shelving, and lighting fixtures. The strength and corrosion resistance of Aluminum Embedded Parts make them an ideal choice for these applications, ensuring that fixtures remain securely in place for years to come.

Aluminum Embedded Parts are also highly customizable, with size and shape options available to suit any project. This customization makes them an ideal choice for a wide range of applications, from large-scale construction projects to smaller DIY or home improvement projects.

Packing and Shipping:

Product Packaging:

Our Aluminum Embedded Parts are carefully packaged to ensure safe delivery to our customers. Each piece is individually wrapped in protective material and then placed in a sturdy cardboard box. The box is sealed and labeled with the product name and quantity for easy identification.

Shipping:

We offer worldwide shipping for our Aluminum Embedded Parts. Orders are processed within 24 hours of purchase and shipped via reliable courier services. Customers are provided with a tracking number to monitor the status of their shipment. Delivery times vary depending on the destination, but typically take between 5-10 business days.

FAQ:

Q: Where are the Aluminum Embedded Parts produced?

A: Our Aluminum Embedded Parts are produced in Hebei, China.

Q: What kind of certification do your Aluminum Embedded Parts have?

A: Our Aluminum Embedded Parts have ISO9001 certification.

Q: What is the minimum order quantity for Aluminum Embedded Parts?

A: The minimum order quantity for Aluminum Embedded Parts is negotiable.

Q: What is the price of Aluminum Embedded Parts?

A: The price of Aluminum Embedded Parts is negotiable.

Q: How are the Aluminum Embedded Parts packaged and delivered?

A: The packaging details for Aluminum Embedded Parts are according to customer needs. The delivery time is 15-30 work days.

Q: What are the payment terms for Aluminum Embedded Parts?

A: The payment terms for Aluminum Embedded Parts are TT.
