## Product Description

### Product Description:

Our Cable Tray is an essential part of any cable management system. It provides a safe and organized way to manage cables and wires, ensuring that they are secured and protected from damage. With its integrated channel design, it allows for easy access to cables and makes it easy to add or remove cables as needed.

Our Cable Tray is not only functional but also highly durable. It is made from high-quality materials that are resistant to fire and have good fire resistance. This feature ensures that our Cable Tray is safe to use in any situation and can withstand harsh environmental conditions. Additionally, our Cable Tray is available in OEM, making it customizable to your specific needs.

In summary, our Cable Tray is a top-of-the-line product that offers excellent features such as insulation, heat dissipation, and fire prevention. It is rectangular in shape and an integrated channel type product, making it easy to install and fit in any space requirement. Our Cable Tray is fire-resistant and available in OEM, making it customizable to your specific needs. It is an essential part of any cable management system and provides a cost-effective and efficient cable support channel.

### Features:

This Cable Tray product is an Integrated Channel Type that is made of Steel. It is available in lengths of 2-3m, and can be OEM customized. It is ideal for use as a Cable Support Channel, Wireway Support System, or Cable Raceway Tray.

### Technical Parameters:

Product Attributes	Details
Product Type	Integrated Channel Type
Material	Steel
Raw Material	Steel
Shape	Rectangular
Width	400mm, Customization
Thickness	2.0mm
Features	Insulation, Heat Dissipation, And Fire Prevention
Weight	Lightweight
Installation Method	Wall-mounted Or Ceiling-mounted
Trade Type	Manufacture And Export

### Applications:

Our cable tray is an integrated channel type, making it a versatile product that can be used for a range of applications and scenarios. It is lightweight, making it easy to install, and it is available for OEM customization. The width of our cable bridge tray is 400mm, but we offer customization options to meet the specific needs of our customers.

The cable raceway tray is ideal for a range of product application occasions and scenarios. It is commonly used in buildings, data centers, and factories. Our cable tray is perfect for organizing and protecting cables, ensuring a neat and tidy space. It is also ideal for applications where heat dissipation is required, as it allows for better airflow, preventing overheating.

### Packing and Shipping:

#### Product Packaging:

The cable tray will be packaged in sturdy cardboard boxes.

Each box will contain all necessary hardware and installation instructions.

Boxes will be labeled clearly with the product name and size.

#### Shipping:

Shipping will be handled by a third-party carrier.

Shipping costs will be calculated based on the destination and weight of the shipment.

Customers can choose between standard or expedited shipping options.

Tracking information will be provided once the shipment has been processed.

---
