Industrial Integrated Channel Type Cable Tray For Commercial Wire Management 2.0mm Thickness

Our Product Introduction

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Features: Insulation, Heat Dissipation, And Fire Prevention
- Thickness: 2.0mm
- Product Type: Integrated Channel Type
- Installation Method: Wall-mounted Or Ceiling-mounted
- Shape: Rectangular
- Oem: Available
- Width: 400mm Customization
- Trade Type: Manufacture And Export
- Highlight: **channel type cable tray**, **2.0mm cable tray**, **2.0mm cable channel tray**

Product Description:

Our cable raceway tray is an integrated channel type product that is designed to provide a safe and secure pathway for cables. It is made from high-quality metal, which ensures that it can withstand the rigors of industrial use. It is perfect for use in data centers, manufacturing plants, and other settings where cables need to be organized and protected.

One of the main benefits of our metal cable tray is its durability. It is designed to last for years, even in harsh environments. This means that you can install it once and forget about it, giving you peace of mind and saving you time and money in the long run.

Our metal cable tray is available in lengths of 2-3m, making it suitable for a wide range of applications. Whether you need to manage a few cables or hundreds, our product can be customized to meet your specific needs.

Features:

This Cable Tray is a Wireway Support System that offers a reliable Cable Management System for your workplace. The Cable Raceway Tray is made of high-quality steel, ensuring its durability and longevity.

Technical Parameters:

Product Type	Integrated Channel Type
Length	2-3m
Weight	Lightweight
Trade Type	Manufacture And Export
Thickness	2.0mm
Width	400mm,Customization
Durability	Long-lasting
Shape	Rectangular
Material	Steel
Features	Insulation, Heat Dissipation, And Fire Prevention

Applications:

The Cable Tray is an Integrated Channel Type, which means that it is designed to hold multiple cables within a single structure. This type of tray is ideal for applications where space is limited, and multiple cables need to be organized within a single channel. The Cable Tray is available in lengths of 2-3m, making it perfect for use in long cable runs. Moreover, it is fire-resistant, making it an ideal solution for fire-prone areas.

The Cable Tray is suitable for a wide range of application occasions and scenarios. It is commonly used in commercial buildings, industrial facilities, data centers, and other locations where cable management is essential. The Cable Tray is designed to withstand harsh environments and is ideal for use in areas where moisture, dust, and debris are present. It is also ideal for use in areas where cable changes are frequent. The Cable Tray can be easily modified and reconfigured to accommodate new cables and wires.

Packing and Shipping:

Product Packaging:
The Cable Tray product will be packaged in a sturdy cardboard box to ensure it arrives to you in good condition. The box will be labeled with the product name and any necessary handling instructions. Inside the box, the Cable Tray will be wrapped in bubble wrap to protect it from any damage during shipping.

Shipping:
The Cable Tray product will be shipped via standard ground shipping. Estimated delivery time will vary depending on your location. Once the product has been shipped, you will receive a tracking number to monitor the delivery status.

FAQ:

Q: Where is the Cable Tray product made?
A: The Cable Tray product is made in Hebei, China.
Q: Does the Cable Tray product have any certification?
A: Yes, the Cable Tray product is certified with ISO9001.
