

Customization Rectangular Steel Cable Trays With Insulation For 400mm

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Features: Insulation, Heat Dissipation, And Fire Prevention
- Shape: Rectangular
- Weight: Lightweight
- Durability: Long-lasting
- Raw Material: Steel
- Width: 400mm Customization
- Thickness: 2.0mm
- Trade Type: Manufacture And Export
- Highlight: **customization cable tray, customization cable channel tray, rectangular cable tray**

Product Description

Product Description:

As both a manufacturer and exporter, we have a strong reputation for high-quality products that meet even the most demanding requirements. Our Steel Cable Tray is no exception, offering a durable and reliable solution for organizing and protecting your cables. This Cable Management System is perfect for those who need to manage cables over a distance, as it comes in lengths of 2-3m. This allows you to cover a large area with just one piece of Cable Tray, making installation and maintenance much easier. Our Steel Cable Tray is an integrated channel type, which means it has a solid bottom and sides to provide maximum support and protection for your cables. This design also makes installation much easier, as the tray can be mounted directly onto walls or ceilings. Overall, our Metal Cable Tray is a reliable and cost-effective Cable Management System that can help you keep your cables organized and protected. With its customizable width, integrated channel type design, and durable steel construction, this Cable Management System is perfect for a wide range of applications.

Technical Parameters:

Product Type	Integrated Channel Type
Weight	Lightweight
Raw Material	Steel
Width	400mm,Customization
Material	Steel
Fire Resistance	Good
Shape	Rectangular
Length	2-3m
Oem	Available
Durability	Long-lasting

Applications:

The Cable Tray is commonly used in commercial and industrial buildings where a large amount of electrical and communication cables are needed. The product is also suitable for outdoor installations, such as construction sites and railway stations. The Cable Tray can be installed on walls, ceilings, and floors, providing flexibility and convenience for cable routing and support.

The Cable Tray comes in a rectangular shape, with a length of 2-3m. The raw material used for the product is steel, which ensures the durability and long-lasting performance of the product. The Cable Tray has a thickness of 2.0mm, making it strong enough to support heavy cables. The product is designed to withstand harsh environmental conditions, such as extreme temperatures and humidity.

The Cable Tray is a cost-effective solution for cable management and support. It provides a neat and organized way of routing cables, reducing the risk of damage and signal interference. The Cable Tray is also easy to install and maintain, saving time and labor costs.

Packing and Shipping:

Product Packaging:

The cable trays will be packed in sturdy cardboard boxes.

Each box will be labeled with the product name, size, and quantity.

The boxes will be sealed with heavy-duty packing tape for added security.

Shipping:

The cable trays will be shipped via a reputable courier service.

Shipping costs will be calculated based on the weight and destination of the order.

Customers will receive a tracking number to monitor the status of their shipment.

The estimated delivery time will be provided at the time of purchase.
