

## Rectangular Steel Integrated Channel Type Raceway Cable Tray 2.0mm Galvanized Steel Cable Tray

### Our Product Introduction

for more products please visit us on [galvmetal.com](http://galvmetal.com)

#### Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

#### Product Specification

- Features: Insulation, Heat Dissipation, And Fire Prevention
- Shape: Rectangular
- Product Type: Integrated Channel Type
- Durability: Long-lasting
- Raw Material: Steel
- Thickness: 2.0mm
- Width: 400mm Customization
- Material: Steel
- Highlight: **raceway cable tray 2.0mm, 2.0mm galvanized steel cable tray, channel type raceway cable tray**

## Product Description

### Product Description:

Our cable tray is manufactured and exported to meet the highest standards in the industry. You can trust us to provide a product that is both reliable and effective, ensuring that your cables are kept safe and secure at all times. Whether you need a wireway support system or a cable support channel, our product is the ideal choice for your needs.

One of the key benefits of our cable tray is its excellent fire resistance. We understand that safety is a top priority in any setting, which is why we have designed our product to provide good protection against fire. You can rest assured that our cable tray will help prevent the spread of flames, keeping your space safe and secure.

In summary, our steel cable tray is a top-quality product that offers a range of impressive features. Manufactured and exported to meet the highest standards, it is both durable and long-lasting, providing a secure and reliable solution for all your cable support needs.

Whether you require a wireway support system or a cable support channel, our product is the perfect choice, offering insulation, heat dissipation, and fire prevention, as well as good protection against flames. Invest in our cable tray today and enjoy the peace of mind that comes with knowing your cables are safe and secure.

### Technical Parameters:

Product Name	Cable Bridge Tray
Features	Insulation, Heat Dissipation, And Fire Prevention
Shape	Rectangular
Durability	Long-lasting
Width	400mm,Customization
OEM	Available
Thickness	2.0mm
Material	Steel
Weight	Lightweight
Trade Type	Manufacture And Export
Raw Material	Steel
Application	Cable Management System, Wireway Support System

### Applications:

Made from high-quality steel, our Cable Tray product boasts a thickness of 2.0mm, making it durable and long-lasting. It is fire-resistant, ensuring that your cables are protected in the event of a fire. It is also certified with ISO9001, ensuring that it meets the highest quality standards.

The Cable Tray product is ideal for a variety of scenarios and applications. It can be used in commercial and industrial settings to manage cables for power, lighting, and communication systems. It is perfect for data centers, hospitals, schools, and other facilities that require a reliable and efficient Cable Management System.

The Cable Tray product is also ideal for Cable Raceway Tray applications. It can be used to create a cable raceway that protects and organizes cables in a neat and organized manner. This makes it easy to access specific cables and to make changes or repairs when necessary.

### Packing and Shipping:

The cable tray product will be packaged in a sturdy cardboard box to ensure safe transportation. The box will be labeled with the product name, quantity, and any necessary handling instructions. Inside the box, the cable tray will be securely wrapped in bubble wrap or other protective material to prevent any damage during shipping.

#### Shipping:

The cable tray product will be shipped via a reputable carrier such as UPS or FedEx. The shipping cost will be calculated based on the weight of the package and the destination. Once the package has been shipped, the customer will receive a tracking number via email or phone so they can track their order. Delivery times may vary depending on the destination, but we will do our best to ensure that your order arrives as soon as possible.

---

### FAQ:

#### Q: What is a cable tray?

A: A cable tray is a support system used to hold cables and wires in commercial and industrial construction projects. It is an alternative to conduit piping and is designed to provide greater flexibility, ease of installation, and cost-effectiveness.

#### Q: Where is your cable tray made?

A: Our cable tray is manufactured in Hebei, China.

#### Q: Is your cable tray certified?

A: Yes, our cable tray is certified with ISO9001.

#### Q: What is the minimum order quantity for your cable tray?

A: The minimum order quantity is negotiable. Please contact us for more information.

#### Q: What are the payment terms for purchasing your cable tray?

A: The payment terms for purchasing our cable tray are TT.

#### Q: How long does it take to receive a delivery of your cable tray?

A: The delivery time for our cable tray is typically 15-30 work days, depending on the quantity ordered and shipping location.

#### Q: What is the price of your cable tray?

A: The price of our cable tray is negotiable. Please contact us for a quote.

#### Q: How is your cable tray packaged?

A: Our cable tray is packaged according to the needs of the customer. Please contact us for more information.
