

8mm-360mm Galvanized Round Bar For High Temperature And Low Temperature Material Characteristics

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Zinc Coating: 200g/m2 - 600g/m2
- Specifications: 8mm-360mm
- Diameter: Customization
- Length: Customization
- Surface Treatment: Galvanized
- Shape: Round
- Material: Q235
- Steel Grade: Hot Dip Galvanizing
- Highlight: 360mm galvanized round bar ,
8mm galvanized round bar ,
8mm galvanized steel round bar

Product Description

Product Description:

One of the key features of this steel bar is its excellent corrosion resistance. This is due to the hot-dip zinc coating that is applied to the surface of the bar. This coating provides a layer of protection against rust and other forms of corrosion, ensuring that the bar remains in good condition even when exposed to harsh environmental conditions.

In addition to its corrosion resistance, the Galvanized Round Steel Bar is also able to withstand both high and low temperatures. This makes it an ideal choice for use in applications where temperature fluctuations are common, such as in industrial or construction settings.

The Galvanized Round Steel Bar is also highly customizable, with lengths available to suit a wide range of needs. This ensures that you can get the exact specifications that you require for your project, without having to worry about any unnecessary waste or excess material.

The technique used to create this steel bar is hot rolling, which is known for producing high-quality metal products with a consistent shape and size. This ensures that each bar is of the same high standard, with no variations in quality or performance.

Technical Parameters:

Product Name	Solid Galvanized Round Steel Bar
Technique	Hot Rolled
Application	Building Materials, Building
Material	Steel
Material Characteristics	Corrosion Resistance, High Temperature And Low Temperature
Surface Finish	Bright Surface
Diameter	Customization
Material	Q235
Packing	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
Specifications	8mm-360mm
Length	Customization

Applications:

Our Galvanized Round Steel Bars are perfect for a variety of building applications. The corrosion resistance of our hot-dip zinc coating ensures that your steel will last longer, even in harsh environments. This makes our product ideal for use in structures that are exposed to moisture, salt water, and other corrosive elements. Additionally, the high temperature and low temperature resistance of our steel makes it suitable for use in extreme weather conditions.

When it comes to payment, we accept TT, making it easy and convenient for you to do business with us. Our Galvanized Round Steel Bar is made from high-quality coil and is suitable for use in a variety of building applications. Whether you are building a new structure or repairing an existing one, our Galvanized Round Steel Bar is a reliable and cost-effective solution.

Packing and Shipping:

Product Packaging:

Galvanized Round Steel Bar

Length: 6 meters per bar

Packaging: Bundles of 50 bars

Weight: Approximately 2 metric tons per bundle

Shipping:

Shipping Method: Sea freight

Port of Loading: [Insert Port of Loading]

Port of Destination: [Insert Port of Destination]

Lead Time: [Insert Lead Time]

FAQ:

Q: What is the place of origin of Galvanized Round Steel Bar?

A: Galvanized Round Steel Bar is made in Hebei, China.

Q: What certification does Galvanized Round Steel Bar have?

A: Galvanized Round Steel Bar is certified with ISO9001.

Q: What is the minimum order quantity for Galvanized Round Steel Bar?

A: The minimum order quantity for Galvanized Round Steel Bar is negotiable.

Q: What is the price of Galvanized Round Steel Bar?

A: The price of Galvanized Round Steel Bar is negotiable.

Q: What are the packaging details for Galvanized Round Steel Bar?

A: The packaging details for Galvanized Round Steel Bar are according to customer needs.

Q: What is the delivery time for Galvanized Round Steel Bar?

A: The delivery time for Galvanized Round Steel Bar is 15-30 work days.

Q: What are the payment terms for Galvanized Round Steel Bar?

A: The payment terms for Galvanized Round Steel Bar are TT.
