

Durable Galvanized Round Steel Bar with Zinc Coating of 200g/m2 600g/m2

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Material: Q235
- Zinc Coating: 200g/m2 - 600g/m2
- Technique: Hot Rolled
- Surface Finish: Bright Surface
- Length: Customization
- Shape: Round
- Steel Grade: Hot Dip Galvanizing
- Material Characteristics: Corrosion Resistance, High Temperature And Low Temperature
- Highlight: **durable galvanized round steel bar ,
durable galvanized round bar ,
200g galvanized round bar**

Product Description

Product Description:

One of the key features of this Galvanized Round Steel Bar is its surface treatment. The bar is coated with a layer of hot-dip zinc, which provides excellent protection against corrosion. This makes it ideal for use in outdoor or marine environments, where exposure to moisture and salt can cause other materials to rust and deteriorate over time.

In addition to its corrosion-resistant properties, this Low Hot Rolled Round Bar is also able to withstand high and low temperatures. This makes it a versatile choice for a wide range of applications, including structural supports, machinery parts, and more.

When it comes to packing, this Galvanized Round Steel Bar is available in bundles, which are wrapped in waterproof plastic bags and woven bags to protect them during transport. This ensures that your order arrives in excellent condition, ready for use.

Overall, the Galvanized Round Steel Bar is a high-quality and reliable product that is perfect for use in a variety of construction and industrial settings. Its hot-dip zinc coating provides excellent corrosion resistance, while its ability to withstand extreme temperatures makes it a versatile choice for many applications. Whether you're working on a large-scale construction project or simply need a durable and reliable steel bar for your workshop, this product is an excellent choice.

Features:

Looking for a Low Hot Rolled Round Bar? Our Galvanized Round Steel Bar is a great choice! It has a hot rolled technique and a zinc coating between 200g/m² - 600g/m². With its customization diameter and galvanized surface treatment, it's perfect for building materials and building applications.

Technical Parameters:

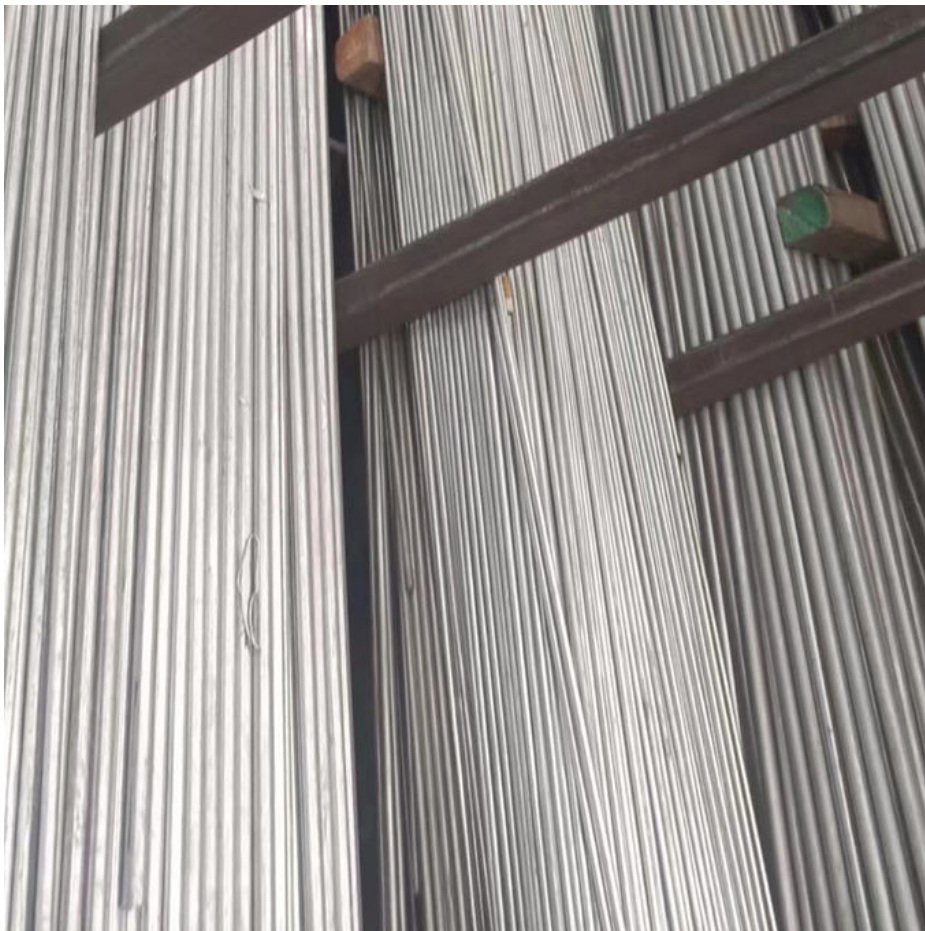

Parameter	Value
Product Name	Low Hot Rolled Round Bar, Hot-dip Zinc Coated Round Steel, Solid Galvanized Round Steel Bar
Length	Customization
Packing	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
Application	Building Materials, Building
Surface Treatment	Galvanized
Surface Finish	Bright Surface
Technique	Hot Rolled
Shape	Round
Zinc Coating	200g/m ² - 600g/m ²
Material	Q235 Steel

Applications:

The Galvanized Round Steel Bar is versatile and can be used in a variety of applications that require strength, durability, and resistance to corrosion. The product is commonly used in construction, such as in the fabrication of bridges, buildings, and other structures. It is also used in the manufacturing of various machinery, such as agricultural equipment, conveyor systems, and industrial machinery.

The Hot-dip Zinc Coated Round Steel is available in a wide range of diameters, making it customizable to fit specific needs and requirements. It has a bright surface finish, making it visually appealing and suitable for decorative purposes. The Zinc Coating ranges from 200g/m² to 600g/m², providing varying levels of protection against corrosion.

When it comes to ordering the Galvanized Round Steel Bar, the Minimum Order Quantity is negotiable, and the price is also negotiable depending on the order quantity and other factors. Packaging Details can be customized according to customer needs to ensure safe transportation and storage. The Delivery Time is typically 15-30 work days, depending on order quantity and destination. Payment Terms are TT.

Packing and Shipping:

Product Name: Galvanized Round Steel Bar

Size: 1/4 inch diameter, 10 feet length

Material: Galvanized Steel

Packaging: The Galvanized Round Steel Bar is securely packaged in a bundle of 10 pieces, wrapped with plastic and then placed in a sturdy cardboard box.

Shipping: The product will be shipped via standard ground shipping and will arrive within 5-7 business days. Expedited shipping is available for an additional fee.

FAQ:

Q1: What is the place of origin for Galvanized Round Steel Bars?

A1: Galvanized Round Steel Bars are manufactured in Hebei, China.

Q2: What kind of certification do Galvanized Round Steel Bars have?

A2: Galvanized Round Steel Bars are certified with ISO9001.

Q3: What is the minimum order quantity for Galvanized Round Steel Bars?

A3: The minimum order quantity for Galvanized Round Steel Bars is negotiable.

Q4: What is the price for Galvanized Round Steel Bars?

A4: The price for Galvanized Round Steel Bars is negotiable.

Q5: What are the packaging details and delivery time for Galvanized Round Steel Bars?

A5: The packaging details for Galvanized Round Steel Bars are according to customer needs. The delivery time is typically between 15-30 work days.

Q6: What are the payment terms for Galvanized Round Steel Bars?

A6: The payment terms for Galvanized Round Steel Bars are TT.
