

8mm-360mm Q235 Galvanized Steel Round Bar For Building Materials

Our Product Introduction

for more products please visit us on galvmetal.com

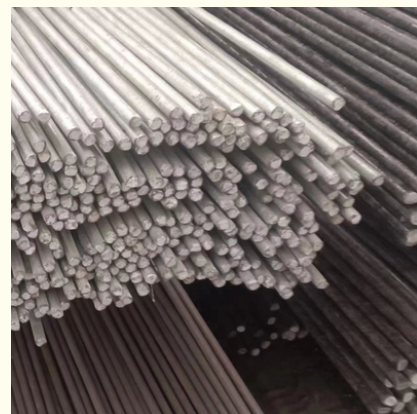

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Steel Grade: Hot Dip Galvanizing
- Specifications: 8mm-360mm
- Packing: In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
- Application: Building Materials, Building
- Length: Customization
- Zinc Coating: 200g/m2 - 600g/m2
- Grade: Coil
- Material: Q235
- Highlight: q235 galvanized steel round bar ,
8mm round steel bar ,
8mm galvanized steel round bar

Product Description

Product Description:

This Hot-dip Zinc Coated Round Steel is a type of Carbon Steel Bar that has undergone galvanization, which means that it has been coated with a layer of zinc to protect it from corrosion and rust. This process involves dipping the steel into a hot molten zinc bath, which results in a durable and long-lasting finish that can withstand harsh environments.

The Galvanized Circular Steel is made of high-quality steel that has undergone a hot dip galvanizing process, which provides a protective layer against corrosion. This process enhances the steel's durability and makes it resistant to rust and other forms of corrosion, ensuring that it will last for years to come.

Our Galvanized Round Steel Bar is perfect for a wide range of applications, including construction, manufacturing, and infrastructure. It can be used to create sturdy and durable structures such as bridges, buildings, and towers. It can also be used to manufacture various components such as nuts, bolts, and screws.

The surface treatment of this product is galvanization, which ensures that it will remain protected from rust and corrosion for a long time. This makes it ideal for use in harsh environments where other materials might fail.

Technical Parameters:

Diameter	Customization
Length	Customization
Grade	Coil
Zinc Coating	200g/m2 - 600g/m2
Steel Grade	Hot Dip Galvanizing
Material Characteristics	Corrosion Resistance, High Temperature And Low Temperature
Type	Carbon Steel Bar
Application	Building Materials, Building
Material	Q235
Technique	Hot Rolled

Applications:

The material used for the Galvanized Round Steel Bar is Q235, which is a type of steel with excellent properties such as corrosion resistance, high temperature, and low temperature. The Hot Rolled technique used in the manufacturing process makes the product more robust and durable. The product's length can be customized as per the customer's requirements.

The Galvanized Round Steel Bar finds its application in various industries such as construction, automotive, agricultural, and many more. In the construction industry, it is used for making gates, railings, and fences, while in the automotive industry, it is used for the manufacturing of chassis and other automobile parts. In agriculture, it is used for making equipment and tools.

The Galvanized Round Steel Bar's corrosion-resistant property makes it an ideal product for outdoor applications as it prevents the product from rusting and increases its lifespan. The high and low-temperature resistance of the product makes it suitable for use in extreme weather conditions.

Packing and Shipping:

Product Packaging: Each Galvanized Round Steel Bar is packaged in a bundle with steel straps and protected with plastic sheets to prevent any damage during transportation.

Shipping: We offer nationwide shipping for our Galvanized Round Steel Bars. The shipping cost will depend on the quantity and destination of the order. Please contact us for a quote.

FAQ:

Q: Where is the Galvanized Round Steel Bar produced?

A: The Galvanized Round Steel Bar is produced in Hebei, China.

Q: Is the Galvanized Round Steel Bar certified?

A: Yes, it is certified with ISO9001.

Q: What is the minimum order quantity for the Galvanized Round Steel Bar?

A: The minimum order quantity is negotiable.

Q: What is the price of the Galvanized Round Steel Bar?

A: The price is negotiable.

Q: How is the Galvanized Round Steel Bar packaged and delivered?

A: The Galvanized Round Steel Bar is packaged according to customer needs and delivered within 15-30 work days.

Q: What are the payment terms for the Galvanized Round Steel Bar?

A: The payment terms for the Galvanized Round Steel Bar are TT.
