

Hot Dip Galvanizing Q235 Stainless Steel Round Bar For Construction In Bright Surface Finish

Our Product Introduction

for more products please visit us on galvmetal.com

Basic Information

- Place of Origin: Hebei, China
- Certification: ISO9001
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: According to customer needs
- Delivery Time: 15-30 work days
- Payment Terms: TT

Product Specification

- Surface Finish: Bright Surface
- Length: Customization
- Zinc Coating: 200g/m² - 600g/m²
- Material: Q235
- Application: Building Materials, Building
- Grade: Coil
- Specifications: 8mm-360mm
- Type: Carbon Steel Bar
- Highlight: **q235 stainless steel round bar ,
galvanizing round steel bar ,
galvanizing stainless steel round bar**

Product Description

Product Description:

The round shape of this Stainless Steel Bar for Constructional purposes makes it perfect for use in various construction projects. Its bright surface finish adds a touch of elegance to any structure, making it an excellent choice for both functional and aesthetic purposes.

Our Galvanized Round Steel Bar comes in a range of specifications, from 8mm to 360mm, providing you with the flexibility to choose the perfect size for your specific needs. Whether you need it for a small-scale or large-scale project, our steel bar can provide the necessary strength and support.

Thanks to its Hot Dip Galvanizing steel grade, our Round Steel Bar is highly resistant to corrosion and rust, providing long-lasting durability. This makes it an ideal choice for outdoor use, ensuring that it will withstand exposure to moisture and other harsh elements.

Technical Parameters:

Type	Carbon Steel Bar
Application	Building Materials, Building
Material characteristics	Corrosion Resistance, High Temperature And Low Temperature
Packing	In Bundles, Waterproof Plastic Bag, Woven Bag, Etc.
Length	Customization
Diameter	Customization
Surface Treatment	Galvanized
Specifications	8mm-360mm
Steel Grade	Hot Dip Galvanizing
Material	Q235

Applications:

The Galvanized Round Steel Bar is a hot-dip zinc coated round steel bar that provides excellent corrosion resistance making it the perfect material for constructional purposes. The bright surface finish of the product also provides an aesthetic appeal which is ideal for decorative applications.

The Galvanized Round Steel Bar can be used for a wide range of product application occasions and scenarios. One of its most common uses is in the construction industry where it is used for the manufacture of steel structures, such as bridges, buildings, and other infrastructure projects. The Galvanized Round Steel Bar is also used in the manufacturing of different types of mechanical components, including gears, shafts, and axles.

The Galvanized Round Steel Bar is also popular in the manufacturing of different types of equipment and machinery used in various industries. Its durability and strength make it ideal for the manufacture of agricultural equipment, mining equipment, and industrial machinery. The Galvanized Round Steel Bar is also used in the manufacturing of different types of vehicles, including cars, trucks, and trailers.

The Galvanized Round Steel Bar is also widely used in the manufacturing of different types of furniture and household items. Its bright surface finish makes it perfect for the manufacture of decorative items such as lamps, picture frames, and other household accessories. It can also be used for the manufacture of different types of furniture, including tables, chairs, and cabinets.

Packing and Shipping:

Product: Galvanized Round Steel Bar

Size: 1 inch diameter, 6 feet length

Material: Steel

Packaging: Each bar is individually wrapped in plastic and bundled together with steel straps for secure transportation.

Shipping: This product is shipped via ground transportation and usually takes 5-7 business days for delivery. Shipping costs will be calculated at checkout.

FAQ:

Q: What is the place of origin of the Galvanized Round Steel Bar?

A: The Galvanized Round Steel Bar is manufactured in Hebei, China.

Q: What certification does the Galvanized Round Steel Bar have?

A: The Galvanized Round Steel Bar has ISO9001 certification.

Q: What is the minimum order quantity for the Galvanized Round Steel Bar?

A: The minimum order quantity for the Galvanized Round Steel Bar is negotiable.

Q: What is the price of the Galvanized Round Steel Bar?

A: The price of the Galvanized Round Steel Bar is negotiable.

Q: What are the packaging details for the Galvanized Round Steel Bar?

A: The packaging details for the Galvanized Round Steel Bar will be according to customer needs.

Q: What is the delivery time for the Galvanized Round Steel Bar?

A: The delivery time for the Galvanized Round Steel Bar is 15-30 work days.

Q: What are the payment terms for the Galvanized Round Steel Bar?

A: The payment terms for the Galvanized Round Steel Bar are TT.
